Battle for the Heart of Texas Mark Owens, Ken Wink, Kenneth Bryant, 2022-08-11 Texas is a solid red state Or trending purple Or soon to be blue One thing is certain as Texas looms ever larger in national politics the makeup of its electorate increasingly matters At a critical moment as migration immigration and a maturing populace alter the state's political landscape this book presents a deeply researched data-rich look at who Texas voters are what they want and what it might mean for the future of the Republican and Democratic parties the state and the nation Battle for the Heart of Texas goes beyond the pronouncements of leaders and pundits to reveal voters' nuanced opinions about the 2020 Democratic primary candidates state and national Republicans' responses to the Covid-19 pandemic and issues such as immigration and gun policy Working with an unprecedented cache of polling figures and qualitative data from surveys and focus groups the product of a cooperative effort between the Dallas Morning News and The University of Texas at Tyler Mark Owens Kenneth A Wink and Kenneth Bryant Jr provide an in-depth examination of what is reshaping voter preferences across Texas including the partisan impact of the urbanization and nationalization of state politics Their analyses pinpoint the influence of race media exposure ideological diversity within the parties and geographic variation across the state detailing how Texas politics has changed over time Race may not have typically defined Texas politics for instance but the authors find that rhetoric on policies related to race are now shaping the electorate The diversity in civic engagement among the Latino community also emerges from the data compounded and complicated by the growth of the Latino population of voting age The largest red state in the country with the second largest population Texas is crucial to the way we think about political change in America and this book amply and precisely equips us to understand the bellwether state's changing politics **At the Heart of Texas** Richard B. McCaslin, 2014-04-01 History like that of Texas is rare Is it not discreditable to the people of Texas that they should leave the collection of material for the history of the State to the great endowed Northern libraries Let

Texas arouse herself for very shame and begin at once the discharge of her filial duty So wrote George Pierce Garrison in the first issue of the Quarterly of the Texas State Historical Association published in July 1897 just months after the establishment of the organization on March 2 The state of Texas was just half a century old the city of Austin going back to the days of the Republic was a little older a few years past its half century and the University of Texas where Garrison was the history professor was not yet fourteen Earlier attempts to organize historical societies in Texas traced in the opening chapter illuminate the factors that came ultimately to be decisive in the success of the Association the wisdom in linking the organization with the University of Texas the inclusion of lay historians and the continued insistence on high academic standards And from the beginning the Association has established a tradition for publishing in the Quarterly in addition to the Anglo story the stories of the Indians the Spanish and the French According to author Richard B McCaslin It may be that the Association survived where its predecessors had not because Garrison who was as much a Progressive historian as any of his contemporaries understood the value of inclusiveness The text is organized in chronological chapters by the tenures of the seven directors George Garrison to Ron Tyler all of whom were professors in the UT history department Within the larger framework of the directors the programs and the publications McCaslin gives shape to the unique interaction of forces university political and the academic lay membership that has accorded the Association a character and suppleness that continues to ensure its long endurance The book is profusely illustrated and sidebars culled from past issues of the Quarterly complement the text Winner of the Award of Merit from the Philosophical Society of Texas

The Heart of the Mission Cary Cordova, 2017-05-04 An illustrated in depth examination of the avant garde and politically radical Latino art of San Francisco s Mission District In The Heart of the Mission Cary Cordova combines urban political and art history to examine how the Mission District a longtime bohemian enclave in San Francisco has served as an important place for an influential and largely ignored Latino arts movement from the 1960s to the present Well before the anointment of the Mission School by art world arbiters at the dawn of the twenty first century Latino artists writers poets playwrights performers and filmmakers made the Mission their home and their muse The Mission home to Chileans Cubans Guatemalans Mexican Americans Nicaraguans Puerto Ricans and Salvadorans never represented a single Latino identity In tracing the experiences of a diverse group of Latino artists from the 1940s to the turn of the century Cordova connects wide ranging aesthetics to a variety of social movements and activist interventions The book begins with the history of the Latin Quarter in the 1940s and the subsequent cultivation of the Beat counterculture in the 1950s demonstrating how these decades laid the groundwork for the artistic and political renaissance that followed Using oral histories visual culture and archival research she analyzes the Latin jazz scene of the 1940s Latino involvement in the avant garde of the 1950s the Chicano movement and Third World movements of the 1960s the community mural movement of the 1970s the transnational liberation movements in Nicaragua and El Salvador and the AIDS activism of the 1980s Through these different historical frames Cordova links the creation of Latino art with a flowering of Latino politics
