Sachs, 2017 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity This global study of Anglicanism from the sixteenth century looks at how was Anglican identity constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non western societies today The chapters are written by international experts in their various historical fields which includes the most recent research in their areas as well as original research The series forms an invaluable reference for both scholars and interested non specialists Volume three of The Oxford History of Anglicanism explores the nineteenth century when Anglicanism developed into a world wide Christian communion largely but not solely due to the expansion of the British Empire By the end of this period an Anglican Communion had come into existence as a diverse conglomerate of often competing Anglican identities with their often unresolved tensions and contradictions but also with some measure of genuine unity The volume examines the ways the various Anglican identities of the nineteenth century are both metropolitan and colonial constructs and how they influenced the wider societies in which they formed Anglican Churches

**The Christian Imagination** Willie James Jennings, 2010-05-25 Why has Christianity a religion premised upon neighborly love failed in its attempts to heal social divisions In this ambitious and wide ranging work Willie James Jennings delves deep into the late medieval soil in which the modern Christian imagination grew to reveal how Christianity's highly refined process of socialization has inadvertently created and maintained segregated societies A probing study of the

cultural fragmentation social spatial and racial that took root in the Western mind this book shows how Christianity has consistently forged Christian nations rather than encouraging genuine communion between disparate groups and individuals Weaving together the stories of Zurara the royal chronicler of Prince Henry the Jesuit theologian Jose de Acosta the famed Anglican Bishop John William Colenso and the former slave writer Olaudah Equiano Jennings narrates a tale of loss forgetfulness and missed opportunities for the transformation of Christian communities Touching on issues of slavery geography Native American history Jewish Christian relations literacy and translation he brilliantly exposes how the loss of land and the supersessionist ideas behind the Christian missionary movement are both deeply implicated in the invention of race Using his bold creative and courageous critique to imagine a truly cosmopolitan citizenship that transcends geopolitical nationalist ethnic and racial boundaries Jennings charts with great vision new ways of imagining ourselves our communities and the landscapes we inhabit

Last Outpost on the Zulu Frontiers Graham Dominy, 2016-04-15 Small and isolated in the Colony of Natal Fort Napier was long treated like a temporary outpost of the expanding British Empire Yet British troops manned this South African garrison for over seventy years Tasked with protecting colonists the fort became even more significant as an influence on and reference point for settler society Graham Dominy's Last Outpost on the Zulu Frontier reveals the unexamined but pivotal role of Fort Napier in the peacetime public dramas of the colony Its triumphalist colonial themed pageantry belied colonists's worries about their own vulnerability As Dominy shows the cultural political and economic methods used by the garrison compensated for this perceived weakness Settler elites married their daughters to soldiers to create and preserve an English speaking oligarchy At the same time garrison troops formed the backbone of a consumer market that allowed colonists to form banking and property interests that consolidated their control

*The Nightwatchman* Hlonipha Mokoena, 2025-08 The Nightwatchman Essays on Portraiture and the Black Male Figure in Colonial South Africa brings into focus the African policeman as a subject of portraiture While colonial governments co-opted and conscripted Africans into military and policing services it was after the Zulu defeat of the English in the battle of Isandlwana that a genre of photography developed around images of the Zulu warrior and Zulu policeman In this illustrated book Hlonipha Mokoena extends the literature on colonial ethnographic photography by creating a narrative of nightwatchman portraiture from the rich archive of images Although the origins of this genre lay in the representation of Fingoes amaMfengu during the frontier wars she argues that an ethnological spectacle of the Zulu male body was inaugurated after the last Zulu king Cetshwayo was photographed as a posing subject While much research has focussed on the African man employed in emasculating labour or as a functionary of settler power this book shifts debates about how the body moves in history Placed in uniform the male subject becomes aestheticised and admired Mokoena focuses less on the idiosyncrasies of the uniform than on the sartorial selection processes and co-optation of colonial aesthetic culture that constructed the idea of the Nonqgqayi or nightwatchman as a fully formed photographic presence The beauty captured in these images upends conceptions of colonial photography as a tool of oppression In its focus

on the figure of the black and brown fighting man The Nightwatchman offers an innovative work on the history of portraiture and dress in colonial South Africa Incorporating insights from African history art history anthropology and critical theory it offers new insights about the use of men of colour in colonial warfare and new avenues for the interpretation of visual representations of the black male figure
