**The Hidden Alcoholic in General Practice** Rodney Hugh Wilkins,1974 **The Journal of the Royal College of General Practitioners** ,1984 National Library of Medicine Current Catalog National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 **Diagnosis of Alcohol Abuse** Ronald Ross Watson,1989-07-31 The latest methods used to diagnose alcoholism are discussed in this timely publication Old systems are reviewed and their efficacy in the diagnosis of alcoholism is analyzed Laboratory methods that could improve the objectivity and accuracy of clinical tests are highlighted Additionally physical psychological and biochemical tests used to diagnose severe alcoholism are explored **Journal of Studies on Alcohol** ,1982 The contents alternate monthly original articles in odd numbered months current literature in even numbered months *The Medical Journal of Australia* ,1976 Alcoholism Services Handbook for Prepaid Group Plans Harold R. Hunter,1982 **Quarterly Journal of Studies on Alcohol** ,1982-05 Includes sections Activities of the Research Council on Problems of Alcohol and Current literature **Family Medicine** J. L. Buckingham,E. P. Donatelle,W. E. Jacott,M. G. Rosen,Robert B. Taylor,2013-06-29 This Second Edition of Family Medicine Principles and Practice presents a scientific approach to health and illness in the context of mankind's most enduring societal unit the family This is a new book building on the strengths of the First Edition The emphasis of this book like that of the specialty itself is on the clinical delivery of health care that is how the practitioner manages common problems and recognizes uncommon entities encountered in office hospital home and nursing home In the First Edition we were faced with the problem of how to organize a family medicine textbook that dealt with clinical topics yet represented more than a series of essays on the specialties for the generalist reader We began by identifying specific objectives outlined in the preface to the First Edition From this evolved an approach which has been called the biopsychosocial perspective inclusion of behavioral family social and cultural aspects of health care integrated with the traditional manifestations and management textbook model The First Edition also introduced a comprehensive classification of clinical problems in family medicine now used in curriculum planning in many family practice residency programs *Methodology for the Observation of Hidden Behaviours in Addiction* Casimiro Balsa,Cláudia Urbano,Clara Vital,2023-09-28 This book tackles the paradox that is the observation of hidden behaviours Concerning the use of substances such as alcohol and other drugs which are prohibited condemned or censored by various instruments of control legal medical moral these behaviours tend to be kept secret from significant others Under what conditions could they be revealed to an unknown inquirer The book discusses these conditions and the ways and their limits to ensure the validity and the reliability of the data collected and to analyse and interpret them It serves as an instrument of reflection for researchers and a source of support for decision makers faced with researching and intervening in harmful drug use **A Bibliography of Drug Abuse, Including Alcohol and Tobacco** Theodora Andrews,1977 725 English language books pamphlets periodicals bibliographies indexes and abstracts published mostly

during 1960 s and 1970 s Emphasis on American literature and on drugs other than alcohol and tobacco Intended for all persons involved in drug education Citations arranged in 2 sections i e General reference sources and Source material by subject area Entry gives bibliographical information price and annotation Author title and subject indexes      *Recent Developments in Alcoholism* Marc Galanter,1987 From the President of the Research Society on Alcoholism In recent years increasingly convincing evidence in support of a biobehavioral conceptual model of the etiology of alcoholism has emerged In this model the disorder is perceived as arising from the interaction of genetic/biological vulnerability and psychosocial risk Drinking or alcohol seeking is a metric trait Alcoholism which is a state of abnormally intense alcohol seeking behavior that over time leads to the alcohol dependence syndrome lies at the extreme high end of this quantitative measure Metric traits are influenced by multiple genes the extent of genetic loading of biological risk for alcoholism would be different in different individuals Added to this kind of variability is the wide range of options for exposure to the psychosocial risk factors of heavy drinking provided by modern society Further environmental provocation also changes when life events change It is not surprising therefore from the combination of the kinds of genetic and environmental variability described above that there is a wide array of patterns of expression of the disorder alcoholism referred to by some as alcoholisms In the search for understanding of underlying mechanisms and rational bases for potential therapy it is important to focus our attention on the final common pathway of this disorder alcohol seeking behavior This series ever since its beginning in 1983 has been sensitive to the complexities of the interaction between biological and psychosocial risk factors in alcoholism      **Gambling** Derek Blaikie Cornish,1978 indexes references with correction slip      Hidden Addictions Marilyn Freimuth,2009-03-19 Media portrayals and diagnostic criteria convey an image of an addicted person as someone whose deficient coping skills and severely compromised functioning are readily apparent Yet addictions remain some of the most frequently missed diagnoses in health and mental health care settings This occurs in large part because most people with addictions do not fit the stereotype In the context of psychotherapy the typical patient with an addiction will present depression anxiety marital problems or a general sense that life is not working This book addresses how addictions can be recognized more often and accurately assessed in the context of psychotherapy Along with learning about the standard assessment instruments the reader is introduced to methods for asking the appropriate questions and listening to the clinical dialogue for signs of a undisclosed addiction This book provides a great deal of knowledge about addictions and their assessment in a way that is relevant to clinical practice      *Abstracts on Hygiene* ,1975-07      British Book News ,1975      British Medical Journal ,1900      **The Cumulative Book Index** ,1994 A world list of books in the English language      **Adolescent Alcoholism** Peggy S. Tillman,1992      **Health Bulletin** ,1985
