Sheriff explores the legendary fictional and real islands that filled the French imagination during the ancien régime as they appeared in royal ballets and festivals epic literature paintings engravings book illustrations and other objects Some of the islands were mythical and found in the most popular literary texts of the day islands featured prominently for instance in Ariosto's *Orlando furioso* Tasso's *Gerusalemme liberata* and Fénelon's *Telemachus* Other islands real ones such as Tahiti and St Domingue the French learned about from the writings of travelers and colonists All of them were imagined to be the home of enchantresses who used magic to conquer heroes by promising sensual and sexual pleasure As Sheriff shows the theme of the enchanted island was put to many uses Kings deployed enchanted island mythology to strengthen monarchical authority as Louis XIV did in his famous Versailles festival *Les Plaisirs de l'île enchantée* Writers such as Fénelon used it to tell morality tales that taught virtue duty and the need for male strength to triumph over female weakness and seduction Yet at the same time artists like Boucher painted enchanted islands to portray art's purpose as the giving of pleasure In all these ways and more Sheriff demonstrates for the first time the centrality of enchanted islands to ancien régime culture in a book that will enchant all readers interested in the art literature and history of the time *The Fortunate Island* Charles Heber Clark, 1882
