The French Right From De Maistre To Maurras:

The French Right J. S. McClelland,1970 **The French Right (from De Maistre to Maurras) ; Edited and Introduced by J.S. McClelland ; Translations of Maurras by John Frears** John Scott MACCLELLAND,1970 **The French Right (from De Maistre to Maurras...edited and Introduced by J.S. McClelland, Translations of Maurras by John Frears** J. S. McClelland,1970 *T. E. Hulme and the Ideological Politics of Early Modernism* Henry Mead,2015-08-27

Drawing on a range of archival materials this book explores the writing career of the poet philosopher art critic and political commentator T E Hulme a key figure in British modernism T E Hulme and the Ideological Politics of Early Modernism reveals for the first time the full extent of Hulme s relationship with New Age a leading radical journal before the Great War focussing particularly on his exchange of ideas with its editor A R Orage Through a ground breaking account of Hulme s reading in continental literature and his combative exchanges amongst the bohemian networks of Edwardian London Mead shows how the strange death of Liberal England coincided with Hulme s emergence as what T S Eliot called the forerunner of the twentieth century mind Tracing his debts to French Symbolism evolutionary psychology Neo Royalism and philosophical pragmatism the book shows how Hulme combined anarchist and conservative impulses in his journey towards a religious attitude The result is a nuanced account of Hulme s ideological politics complicating the received view of his work as proto fascist *Ideology and Revolution in Southeast Asia, 1900-1980* Clive J. Christie,2001 Drawing on books speeches documents and statements issued by key individuals and political and cultural movements in South East Asia between 1900

1975 this book is an ideological history of South East Asia ***Ideology and Revolution in Southeast Asia 1900-1980*** Clive J Christie,Clive J. Christie,2012-12-06 The concept of Asian Values has recently been emphasized by East and South East Asian political leaders These leaders have argued that European political values have exercised an unhealthy hegemony over the international system not only because of global influence exercised by European ideas during the colonial period but because of Anglo Saxon dominance over the world orders that were set up in the aftermath of both the First and Second World Wars This book considers the interaction between indigenous Asian values and European ideology and the influence this relationship had on the nationalist and revolutionary movements of Southeast Asia that dominated the political systems of Southeast Asia in the period 1945 1975 ***The Rise of the Global Imaginary*** Manfred B. Steger,2008-07-03

Neoliberalism Neoconservatism Postmarxism Postmodernism Is there really something genuinely new about today s isms Have we moved past our traditional ideological landscape Combining political history philosophical interpretation and good old fashioned story telling Manfred Steger traces ideology s remarkable journey from Count Destutt de Tracy s Enlightenment science of ideas to President George W Bush s imperial globalism Rejecting futile attempts to update modern political belief systems by adorning them with prefixes the author offers instead a highly original explanation for their novelty their increasing ability to articulate deep seated understandings of community in global rather than national terms This

growing awareness of globality fuels the visions of social elites who reside in the privileged spaces of our global cities It erupts in the hopes and demands of migrants who traverse national boundaries in search of their piece of the global promise Stoked by cross cultural encounters technological change and scientific innovation the rising global imaginary has destabilized the grand political ideologies codified during the national age The national is slowly losing its grip on people s minds but the global has not yet ascended to the commanding heights once occupied by its predecessor Still the first rays of the rising global imaginary have provided enough light to capture the contours of a profoundly altered ideological landscape Pointing in this direction the book ends with a timely interpretation of the apparent convergence of ideology and religion in the dawning global age a broad phenomenon that extends beyond the obvious cases of Christian fundamentalism and Islamic jihadism

Modern European History 1871-2000 David Welch, 2003-07-13 *Modern European History* brings together a unique selection of documents covering the period from 1871 to 2000 The collection is organised by topic and a clear historical context and chronological chart provide background for each section This second edition brings the book up to date and includes such key themes in European history as Bismarck and Imperial Germany the Russian Revolution the origins and aftermath of the First and Second World Wars Fascist Italy and Nazi Germany The Spanish Civil War The Cold War European Integration 1945 1999 Containing documents such as extracts from diaries speeches treaties poetry radio broadcasts photographs cartoons political posters and propaganda this is an essential resource for students of modern British and European history

The Origins of the French Nationalist Movement, 1886-1914 Robert Lynn Fuller, 2014-01-10 This narrative history explores the emergence of one of the most influential Nationalist movements of modern Europe It explains how and why the movement united the far right with the far left in a militant campaign to wrest control of France from the moderate republicans who were attempting to stabilize the country after a century of political volatility The agitation groups propaganda machines street fighting gangs and political hustlers who made up the Nationalists all campaigned for one end to overthrow the Third Republic The eruption of the Dreyfus Affair 1894 1899 provided the Nationalists with a convenient target for their assaults the Dreyfusard defenders of a wrongly convicted Jewish army captain Alfred Dreyfus This work based on original archival research in France argues that the Nationalists posed a real and dangerous threat that dissipated only when their goals were adopted by more moderate competing groups

The Nature of Fascism Roger Griffin, 2013-10-11 *The Nature of Fascism* draws on the history of ideas as well as on political social and psychological theory to produce a synthesis of ideas and approaches that will be invaluable for students Roger Griffin locates the driving force of fascism in a distinctive form of utopian myth that of the regenerated national community destined to rise up from the ashes of a decadent society He lays bare the structural affinity that relates fascism not only to Nazism but to the many failed fascist movements that surfaced in inter war Europe and elsewhere and traces the unabated proliferation of virulent but thus far successfully marginalized fascist activism since 1945
