that would remain consistently a part of Stravinsky's oeuvre regardless of the changes in orientation from the Russian period to the neoclassical and the early serial. The Rite of Spring 1913, Les Noces 1917-23, the Symphony of Psalms 1930 and the Symphony in Three Movements 1945 are discussed in detail as are many of the circumstances attending their conception. Theory, Analysis and Meaning in Music Anthony Pople, 2006-11-02 There have been far reaching changes in the way music theorists and analysts view the nature of their disciplines. Encounters with structuralist and post structuralist critical theory and with linguistics and cognitive sciences have brought the theory and analysis of music into the orbit of important developments in intellectual history. This book presents the work of a group of scholars who without seeking to impose an explicit redefinition of either theory or analysis explore the limits of both in this context. Essays on the languages of analysis and theory and on practical issues such as decidability, ambiguity and metaphor combine with studies of works by Debussy, Schoenberg, Britten and Boulez together making a major contribution to an important debate in the growth of musicology.

Russian Music at Home and Abroad Richard Taruskin, 2016-09-06 This new collection views Russian music through the Greek triad of the Good, the True and the Beautiful to investigate how the idea of nation embeds itself in the public discourse about music and other arts with results at times invigorating at times corrupting. In our divided post Cold War and now post 9/11 world, Russian music formerly a quiet corner on the margins of musicology has become a site of noisy contention. Richard Taruskin assesses the political and cultural stakes that attach to it in the era of Pussy Riot and renewed international tensions before turning to individual cases from the nineteenth century to the present. Much of the volume is devoted to the resolutely cosmopolitan but inveterately Russian Igor Stravinsky, one of the major forces in the music of the twentieth century and subject of particular interest to composers and music theorists all over the world. Taruskin here revisits him for the first time since the 1990s when everything changed for Russia and its cultural products. Other essays are devoted to the cultural and social policies of the Soviet Union and their effect on the music produced there as those policies swung away from Communist internationalism to traditional Russian nationalism to the musicians of the Russian postrevolutionary diaspora and to the tension between the compelling artistic quality of works such as Stravinsky's *Sacred Spring* or Prokofiev's *Zdravitsa* and the antihumanistic or totalitarian messages they convey. Russian Music at Home and Abroad addresses these concerns in a personal and critical way characteristically demonstrating Taruskin's authority and ability to bring living history out of the shadows.

Confronting Stravinsky Jann Pasler, 2023-12-22 Confronting Stravinsky: Man, Musician and Modernist offers a groundbreaking exploration of Igor Stravinsky's dynamic career delving into his stylistic transformations and the broader cultural forces that shaped his influential works. Emerging from the seminal 1982 International Stravinsky Symposium, this collection assembles insights from leading global scholars and Stravinsky's contemporaries encompassing perspectives from music theory, aesthetics, performance practice and cultural history.

Stravinsky's legacy as a pivotal force in 20th century music spanning from Russian nationalism and neoclassicism to serialism offers a fertile ground for examining the tensions between innovation and tradition. Each essay addresses this interplay exploring questions around his use of folk influences, reinvention of classical forms and evolving approaches to serialism. The volume illuminates how Stravinsky maintained his identity across distinct musical phases, revealing threads of continuity in his harmonic techniques, rhythmic innovations and distinctive use of visual and theatrical elements. With a focus on Stravinsky's creative process, adaptations and collaborations, this anthology not only enhances understanding of Stravinsky's compositions but also underscores his broader impact on the arts. This essential resource invites scholars, musicians and cultural historians alike to engage with the many dimensions of Stravinsky's artistry and the ongoing reevaluation of his contributions to modernist thought and practice. Music, Politics, and the Academy
 Pieter C. van den Toorn, 1996-01-01 Advocates of new musicology claim that technical methods of music analysis are conservative, elitist, positivist and emotionally arid. Pieter C. van den Toorn challenges those claims, asking why cultural, sociopolitical or gender studies approaches to music should be deemed more democratic or expressive of music's content or impact. Why should music analysis be thought incapable of serving larger aesthetic ends? Van den Toorn confronts Susan McClary, Leo Treitler and Joseph Kerman in particular, arguing that hands-on music analysis can penetrate the complexity of music and speak to our experience of it. He criticizes new musicologists for retreating from issues of musical immediacy by focusing on cultural issues. In later chapters, van den Toorn defends Schenkerian methods and demonstrates the usefulness of technical analysis in the appreciation of Beethoven, Debussy, Schoenberg and Stravinsky.

[Analytical Approaches to 20th-Century Russian Music](#)
 Inessa Bazayev, Christopher Segall, 2020-09-28 This volume brings together analyses of works by thirteen Russian composers from across the twentieth century, showing how their approaches to tonality, modernism and serialism forge forward-looking paths independent from their Western counterparts. Russian music of this era is widely performed and much research has situated this repertoire in its historical and social context, yet few analytical studies have explored the technical aspects of these composers' styles. With a set of representative analyses by leading scholars in music theory and analysis, this book for

the first time identifies large scale compositional trends in Russian music since 1900 The chapters progress by compositional style through the century and each addresses a single work by a different composer covering pieces by Rachmaninoff Myaskovsky Prokofiev Shostakovich Mansurian Roslavets Mosolov Louri Tcherepnin Ustvolskaya Denisov Gubaidulina and Schnittke Musicians scholars and students will find here a starting point for research and analysis of these composers works and gain a richer understanding of how to listen to and interpret their music

Messiaen's Musical Techniques: The Composer's View and Beyond Gareth Healey, 2016-04-22 Despite Messiaen's position as one of the greatest technical innovators of the twentieth century his musical language has not been comprehensively defined and investigated The composer's 1944 theoretical study *The Technique of My Musical Language* expounds only its initial stages and while his posthumously published *Traité de rythme de couleur et d'ornithologie* contains detailed explanations of selected techniques in most cases the reader is left to define these more precisely by observing them in the context of Messiaen's analyses of his own works Technical processes are nevertheless in many cases the primary components of a work or movement For instance personages dominate *Joie du sang des toiles* from the *Turangala* symphonie and in certain cases such as *L'change* from the *Vingt regards sur l'Enfant Jésus* the process asymmetric augmentation is the only structuring element present Given this reliance on idiosyncratic techniques clear comprehension of the music is impossible without a detailed knowledge of Messiaen's methods Gareth Healey charts their development and interconnections considers their relationship with formal structures and applies them in refined and extended form to works for which Messiaen himself left no published analysis

Olivier Messiaen Christopher Philip Dingle, Nigel Simeone, 2007-01-01 This volume assesses Messiaen's position as a creative artist of the twentieth century in the light of the latest research In the process it identifies some of the key myths confusions and exaggerations surrounding the composer which often mask equally remarkable truths In attempting to reveal some of those truths the essays elucidate a little of the mystery surrounding Messiaen as a man an artist a believer and a musician

Beyond Structural Listening? Andrew Dell'Antonio, 2004-10-11 Rose Subotnik criticized structural listening as an attempt to situate musical meaning solely within the unfolding of the musical structure itself The authors of this volume take up her challenge writing on repertoires ranging from Beethoven to MTV
