vanguardism in the performing arts In pursuing this goal the book not only surveys a wide variety of canonical and noncanonical examples of avant garde performance but also develops a range of theoretical paradigms that defend the haunting cultural and political significance of avant garde expressions beyond what critics have presumed to be the death of the avant garde The Ghosts of the Avant Garde s offers a strikingly new perspective not only on key controversies and debates within avant garde studies but also on contemporary forms of avant garde expression within a global political economy   *The Plot Machine* Kai Mikkonen,2021-11-01 This book presents a new and exciting theory of the modern French novel by developing the notion of the narrative as a textual machine Many turn of the century French novels thematically identified their means of narration through the various machines that they depicted The narrative devices that were particularly important in this self reflection included the temporal order of the plot the question of a narrative s beginning and end the hierarchy of narrative voices and the techniques of the point of view The question of mechanization became central on all these fronts Has the novel become automated or machine like At the same time the machine metaphors in the novels of Alfred Jarry Emile Zola Jules Verne Villiers de l Isle Adam Raymond Roussel combined the question of the narrative form with new ways to think about man s relationship with technology and the cultural environment The early modernist texts drew upon contradictory notions of technological promise and threat while they also depicted new forms of identity and behavior related to or modeled after machines These texts highlighted cultural assumptions concerning technological innovations and critiqued mainly through parody and through various figures of man machine fusion the positivistic belief in progress Such writers looked for evidence of advanced forms of consciousness arising out of encounters with new technology such as telephones trains bicycles telegraphy phonographs and electricity This volume will be of interest to anyone working in the field of modern French literary and cultural history It will especially appeal to anyone intrigued with the origins of the modernist novel the history of narrative forms and the question of how the experience of new technology may be portrayed in literary texts   **Haunted Bodies** Anne Goodwyn Jones,Susan Van D'Elden Donaldson,1997 In Haunted Bodies Anne Goodwyn Jones and Susan V Donaldson have brought together some of our most highly regarded southern historians and literary critics to consider race gender and texts through three centuries and from a wealth of vantage points Works as diversive as eighteenth century court petitions and lyrics of 1970s rock music demonstrate how definitions of southern masculinity and femininity have been subject to bewildering shifts and disabling contradictions for centuries   **The Harkis** Vincent Crapanzano,2011-07 Studies the life in France of those Algerian Muslims who fought with the French army during the war of independence moved to France after the war and were placed in camps for years by the French government   The Luna's Chance (Book Two) Bella Lore,2024-08-14 When Ava a lone she wolf with the enigmatic power of foresight seeks refuge in the heart of Stone Pack s territory she never expects to be the key to an ancient prophecy Caught in the icy grip of winter and the heat of a forbidden love triangle her visions reveal an unseen threat looming over both packs As the
