*Islamization in Modern South Asia* David Emmanuel Singh, 2012-08-31 This book explores the religious identity of the indigenous Gujjars living in Rajaji National Park RNP Uttarakhand India In the broader context of forest conservation discourse steps taken by the local government to relocate the Gujjars outside RNP have been crucial in their choice to associate with NGOs and Deobandi Muslims These intersecting associations constitute the context of their transitioning religious identity The book presents a rich account of the actual process of Islamization through the collaborative agency of Deobandi madrasas and Tablighi Jama at Based on documents and interviews collected over four years it constructs a particular case of Deobandi reform and also balances this with a layered description of the Gujjar responses It argues that in their association with the Deobandis the Gujjars internalized the normative dimensions of beliefs and practices but not at the expense of their traditional Hindu folk culture This capacity for adaptation bodes well for the Gujjars but their proper integration with wider society seems assured only in association with the Deobandis Consequently this research also points toward the role of Islam in integrating marginal groups in the wider context of society in South Asia

**Encounter** Devisch, Rene,2017-01-17 The volume draws from Ren Devisch s encounters with groups in southsaharan Africa primarily The author had the privilege to immerse himself around the clock in the Yakaphones activities and thoughts in southwest DR Congo from 1972 to 1974 and intermittently in Kinshasa s shanty towns from 1986 to 2003 The author first examines what sparked his choice to come to Congo and then to pursue research among the Yakaphones in the borderland with Angola He then invites us to follow the trajectory of his plural anthropological view on today s multicentric world It leads us to his praise for honorary doctor Jean Marc Ela s work He then examines the proletarian outbursts of violence that rocked Congo s major cities in 1991 and 1993 These can be read as a settling of scores with the disillusioning colonial and missionary modernisation along with president Mobutu s millenarian Popular Movement of the Revolution Furthermore after considering the morose reduction of a major Yaka dancing mask into a mere museum bound curio in Antwerp the book unravels the Yakaphones perspectives on spirits and sorcery s threat It also analyses their commitment to classical Bantu

African healing cults along with their parallel consulting physicians and healers By sharing the Yakaphones life world the analysis highlights their body group world weave interlaced by the principle of co resonance A phenomenological and perspectivist look unfolds the local actors views thereby disclosing the Bantu African genius and setting for a major reversal of perspectives Indeed seeing here from there allows the author to uncover some alienating dynamics at work in his native Belgian Flemish speaking culture To better grasp the realm of life beyond the speakable and factual reasoning the approach occasionally turns to the later Lacan s focus on the unconscious desire the body and its affects The book addresses students and researchers in the humanities and more broadly all those immersed in the heat of the encounter with the culturally different

**HIV and Young People** Gary Jones, 2015-11-30 Revisiting the thinking on vulnerability to HIV and risk of infection this book provides better understanding by considering the risk of HIV infection alongside notions of personal and collective resilience dignity and humiliation The work shows that young people in the urban slum dignify their world and in doing so establish priorities and draw on a set of references oftentimes intelligible to them alone Moreover humiliation as an interpersonal event adds to a sense of vulnerability and lies closely behind choices directly affecting personal health and livelihood Thus dignity and humiliation are shown for the first time to have a critical role in health seeking and risky behavior related to HIV and this is an area in great need of further research The crucial focus of this work is further emphasized by the rapid growth of urban slums and high rates of HIV among both slum dwellers and young people who continue to bear the brunt of the AIDS epidemic thirty years on This comprehensive literature review provides a compelling argument that the time is right to further explore the nexus of risk and resilience from a people centered perspective Fresh insight is critical to reach the goal of ending AIDS by 2030
