business Entrepreneurs often look to repurpose an already existing product Your great idea needs to be exploited and your first step is to get other people on board possibly coworkers or people with a similar interest You ll want to share your idea with people in the know who might be willing to offer advice and evaluate their feedback even if these are just informal inquiries When you think in a group or do collective thinking you multiply the collective brain power Many believe you must have a college degree to impress potential financiers It s funny not in a ha ha way how people are so willing to take out a predatory student loan but once they ve achieved their educational goals they become much less inclined to go further into debt to start a new business Potential entrepreneurs need to understand that if you re going to work for yourself you do not necessarily need a degree for most small businesses Still if you re going to do an independent study streamline your education to conform to your business plans You don t need an MBA to be successful It s mostly about internal drive and forward thinking Taking out a large student loan may not be necessary for some self disciplined learners It is important to understand that education is generic In law school students are all taught the same curriculum regardless of what law school they go to This is because the education and bar exams are standardized They re looking for standardized conforming answers on the exams as all lawyers should have the same understanding of standard legal principles Business science disciplines are also standardized Many business principles are used in all types of businesses Common business issues often include acquiring financing developing a company structure developing a management team to execute business initiatives and maintaining a continuity within the workforce Business principles also include integrity transparency fairness social responsibility and professionalism Integrity is measured by how you conduct business Are your transactions transparent and fair In dealing with ongoing financial sources it is vital to maintain trust Anytime you re dealing with other people s money you re acting as a fiduciary That means you owe a duty of loyalty to the investor and are required that maintain a professional relationship with them This course provides entrepreneurs with standard concepts of business basics We re going to start by discussing how businesses are structured legally standard business sciences strategic management industrial and occupational psychology finance and developing a strategic workforce A traditional business plan format endorsed by the Small Business Administration is also included Understanding a little bit about these basic business disciplines provides a foundation for entrepreneurs to know where they need to do further independent research Business knowledge is ever changing and even people with business degrees need to constantly adapt new ideas and principles and independent research is all part of the learning process In the end your objective is to be able to answer questions about your business plan and explain how using accepted business principles will achieve your end game Investors need to feel comfortable with your business prowess You will want to take from this overview the information that is consistent with your individual business needs and develop a business plan If you are seeking finances I recommend that you use either the Traditional Business Plan format or the Lean Startup format You want to know everything about the subject matter you

incorporate into your plan as you ll probably have to be speaking extemporaneously and answering questions by potential financiers Often they re judging you by your short presentation This is your chance to shine To win them over you first have to know what you re talking about The objective of this publication is to provide you with a standardized understanding of basic business disciplines that are relevant to your business plan When you start a business enterprise you always want to ask yourself where do I want to be in five years Then ask yourself How can I get there Set your 5 milestone and then set your yearly stepping stones monthly etc what it s going to take to get you there Financiers will especially want to hear about future growth potentials Investors are going to want to hear about your 5 year projections You will need to become confident on issues germane to your plan That often requires independent research Design your study curriculum for building your business plan specific to your needs and learn how to leverage your business ideas without borrowing money Once your business takes off even though you may not need a college degree to launch and exploit your ideas you will eventually need to hire people with college degrees to fill various divisions as your business grows Some of the most successful entrepreneurs do not have prestigious degrees and tend to always think in terms of spending other people s money not their own *Future of Small Business in America* United States. Congress. House. Committee on Small Business. Subcommittee on Antitrust, Consumers, and Employment, 1978

**International Handbook of Women and Small Business Entrepreneurship**  
Sandra L. Fielden, Marilyn Davidson, 2005 Sandra Fielden and Marilyn Davidson already well known for their contributions to gender issues in management have brought together an absorbing collection of articles that serve to enhance our understanding of a complex area within organisation studies this particular Handbook is not a mere glossary The editors provide a forum for scholarly works in a specialised area of small business and entrepreneurship research And the International Handbook of Women and Small Business Entrepreneurship provides a rich resource collectively the papers serve to summarise and re examine much of the relevant research to date an accessible book that follows a logical and coherent pattern the range of this book is significant and the accomplishment considerable the International Handbook of Women and Small Business Entrepreneurship is a serious contribution to a niche area of entrepreneurship scholarship The editors and authors have established a place for women in the literature confirming that gender issues cannot be dismissed as a mere adjunct to the broader field of entrepreneurship study This collection offers the reader intelligent engagement with the range of research and ways of knowing about women and entrepreneurship Established scholars will find much of interest and we would also confidently recommend the Handbook to interested newcomers Robyn Walker and Kate Lewis

*Women in Management Review* Sandra L Fielden and Marilyn J Davidson have put a great deal of work into producing this compilation of scientific studies on women and small business entrepreneurship In this book the editors have managed to put together an excellent compilation of studies that look at topics that have aroused the highest interest in this field in recent years It offers a good balance between theory and practice oriented studies and presents an academic viewpoint that comes

extremely close to the real current situation of this phenomenon This book therefore provides a useful tool both for the academic community in general and for students particularly at a postgraduate or doctorate level who wish to gain a state of the art overview of this business phenomenon It may also be put to good use by women in management and entrepreneurship as well as policymakers and small service providers given its high empirical content supported by a sound empirical framework which deals with real life issues for women who wish to start up and manage their own businesses Mar a ngeles Escrib Moreno Entrepreneurship Management a truly international unique and impressive contribution to our knowledge and understanding of issues for females starting running and growing businesses an important read for anyone with an interest in female entrepreneurship including researchers support agents and policymakers Moreover this book may be of interest to those concerned with the theoretical development of the study of entrepreneurship Laura Galloway International Journal of Entrepreneurship and Innovation this book can be recommended as an insightful and interesting work on women s entrepreneurship from a broad perspective Wing Lam International Small Business Journal This truly international Handbook makes a significant contribution to the field of women s entrepreneurship by broadening the scope of the conversation hearing voices that are often unheard and providing a framework that organizes the current body of knowledge but also presents pathways for future research and practice Patricia G Greene Babson College US This Handbook is a breakthrough collection Women worldwide are now starting small businesses and entrepreneurial ventures at a faster rate than men Though small in size these initiatives represent a significant factor in economic growth highlighting their importance This collection sheds light on the motivations personality and behaviors of women entrepreneurs the constrai
