Theories of Social Work with Groups

Robert W. Roberts,Helen Northen,1976 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court stating that they had been forced into sexual servitude and demanding

compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi s investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers

Social Work with Groups Helen Northen,Roselle Kurland,2001-08-23 When should someone not be admitted to a group How can a reluctant child be persuaded to participate in a group What is the best way to deal with issues of low self esteem Part of the enduring appeal of this classic work is its vivid depiction of actual group work and the challenges that arise Opening with an instructive survey of the roots and development of group social work from the first YMCA to the establishment of the NASW Northen and Kurland contribute to the integration of theory and research that forms the basis of group social work practice Using an ecosystem approach they set forth a generic framework for practice with diverse groups establishing a common core of values knowledge purposes and interventions that can be applied to different populations and situations With clear step by step guidance this book covers the major issues as well as the ethical challenges that working with groups entails This fully revised and updated edition includes seven new chapters that reflect the most recent developments in group practice

Towards a New Social Work Howard Jones,2023-07-21 In the 1970s social work in Britain was in crisis A process of self searching had begun stimulated by changes in the organization of social services departments by the growth of the radical movement in social work and by the emergence of new techniques in social work All this might have seemed a confusing and depressing prospect but Professor Howard Jones the editor of this collection of essays originally published in 1975 felt on the contrary that this new situation in social work presented an opportunity for a potentially rewarding debate He believed that the old unsatisfactory mould had been broken and that it was now possible for the first time for many years to look at the basic issues in social work without preconceptions The contributors to this book were all actively involved in the teaching and practice of social work at the time and they came together to initiate a debate on the leading issues of the day They were all concerned to find a right course for social work in this crucial period and among the topics they cover are social work training social workers and political action community participation and making
