premodern texts for their understanding of the past By contrast this book considers the role of material culture and highlights how objects such as coins dress monuments paintings and sculptures mediated diverse modes of encounter during a critical but neglected period in South Asian history The book explores modes of circulation among them looting gifting and trade through which artisans and artifacts traveled remapping cultural boundaries usually imagined as stable and static It analyzes the relationship between mobility and practices of cultural translation and the role of both in the emergence of complex transcultural identities Among the subjects discussed are the rendering of Arabic sacred texts in Sanskrit on Indian coins the adoption of Turko Persian dress by Buddhist rulers the work of Indian stone masons in Afghanistan and the incorporation of carvings from Hindu and Jain temples in early Indian mosques Objects of Translation draws upon contemporary theories of cosmopolitanism and globalization to argue for radically new approaches to the cultural geography of premodern South Asia and the Islamic world

Framing the Jina John Cort, 2010-01-21 John Cort explores the narratives by which the Jains have explained the presence of icons of Jinas their enlightened and liberated teachers that are worshiped and venerated in the hundreds of thousands of Jain temples throughout India Most of these narratives portray icons favorably and so justify their existence but there are also narratives originating among iconoclastic Jain communities that see the existence of temple icons as a sign of decay and corruption The veneration of Jina icons is one of the most widespread of all Jain ritual practices Nearly every Jain community in India has one or more elaborate temples and as the Jains become a global community there are now dozens of temples in North America Europe Africa and East Asia The cult of temples and icons goes back at least two thousand years and indeed the largest of the four main subdivisions of

the Jains are called Murtipujakas or Icon Worshipers A careful reading of narratives ranging over the past 15 centuries says Cort reveals a level of anxiety and defensiveness concerning icons although overt criticism of the icons only became explicit in the last 500 years He provides detailed studies of the most important pro and anti icon narratives Some are in the form of histories of the origins and spread of icons Others take the form of cosmological descriptions depicting a vast universe filled with eternal Jain icons Finally Cort looks at more psychological explanations of the presence of icons in which icons are defended as necessary spiritual corollaries to the very fact of human embodiedness *Jaina Temples of Western India* Harihar Singh,1982 **Rupam** ,1920 Includes section Reviews **Jaina-rūpa-maṇḍana** Umakant Premanand Shah,1987 The JAINA RUPA MANDANA Volume I is an authentic work on Jaina iconography from the pen of a well known authority on the subject Dr Umakant P Shah an eminent Indologist and art historian with specialization in Jaina art and literature Illustrated profusely with over two hundred monochrome plates the work is a standard textbook and a very useful guide to all students in Indian art and archaeology and to Museum Curators The work is supplemented with a large number of iconographic tables for images of all important Jaina gods and goddesses Dr Shah the author has for the first time given solutions to various basic problems of Jaina iconography supported with ample evidence from both archaeology and literature including unpublished original texts still in manuscripts
