Tempus Invictus Ernest L. Norman, 1968 **Tempus Interludium** Ernest L. Norman, 1978 Vol I Interdimensional Solar Mechanics including the section entitled Of Atoms and Astronauts Dr Norman explains some of the abnormal reactions of the astronauts upon returning from the moon flights Some of these reactions are after 30 years still not understood by our modern day scientists The topics and subject matter in this book runs the gamut of great and varied interests which again prove and show the truly Infinite Mind of He whom we call the Moderator Tempus Procedium Ernest L. Norman, 1968

The various articles comprising this book were given at different intervals sometimes in reply to some student's letter or questions other times when some article of interest appeared in the news TV etc that attracted the Elder Brother's attention to the point where he would voice his reply and objectification of the topic in question a few were given in a class lecture On other occasions he would simply be contemplating and come up with one or more of these discussions They were given without any thought in mind of becoming a book but were simply individual and separate articles that our Moderator voiced and form a great and important addition to the various other texts of Unarius The Gods Have Landed James R.
