The Best Books William Swan Sonnenschein,1910 **Historic Ghosts and Ghost Hunters** H. Addington Bruce,2022-04-01 The following pages represent in the main a discussion of certain celebrated mysteries as viewed in the light of the discoveries set forth in the writer s earlier work The Riddle of Personality That dealt it may briefly be recalled with the achievements of those scientists whose special endeavor it is to illumine the nature of human personality On the one hand it reviewed the work of the psychopathologists or investigators of abnormal mental life and on the other hand the labors of the psychical researchers those enthusiastic and patient explorers of the seemingly supernormal in human experience Emphasis was laid on the fact that the two lines of inquiry are more closely interrelated than is commonly supposed and that the discoveries made in each aid in the solution of problems apparently belonging exclusively in the other To this phase of the subject the writer now returns The problems under examination are all of them problems in psychical research yet as will be found the majority in no small measure depend for elucidation on facts brought to light by the psychopathologists Of course it is not claimed that the last word has here been said with respect to any one of these human enigmas But it is believed that thanks to the knowledge gained by the investigations of the past quarter of a century approximately correct solutions have been reached and that in any event it is by no means imperative to regard the phenomena in question as inexplicable or as explicable only on a spiritistic basis Before attempting to solve the problems it manifestly was necessary to state them In doing this the writer has sought to present them in a readable and attractive form but without any distortion or omission of material facts
