Inabnet, Chung-Yau Lo, 2009-10-14 This latest addition to the Endocrine Surgical library is a gem to be savored at leisure It is a comprehensive review and is on the cutting edge of current knowledge regarding surgical endocrinology The fact that the three outstanding editors of Endocrine Surgery are from widely separated geographic continents Europe Asia and America clearly establishes the flavor for this international contribution The surgical arena and the endocrine surgical subspecialty in particular is truly international in scope as it should be and today represents a unique close knit family This is a healthy phenomenon for it allows rapid and constant exchange of information and ideas by dedicated surgeons endocrinologists pathologists radiologists and researchers who personally know and respect each other and who share a clear cut common goal to simply do what is best for each and every patient afflicted with an endocrine disorder The astute reader of this encompassing collection of contributions will notice a changing of the guard phenomenon as well Although there are well known players in this endocrine surgical orchestra there are pleasingly a number of less well known albeit for a short time only contributors This is very good indeed and is something that pleases me a member of the old guard immensely The success of surgical education and as a consequence of patient care is that each successive generation should be better and wiser than the preceding one If this is not so the previous generation has dismally failed [Graduate Programs in the Humanities, Arts and Social Sciences 2008](#) Peterson's Guides Staff, Peterson's, 2007-11 The six volumes of Peterson's Annual Guides to Graduate Study the only annually updated reference work of its kind provide wide ranging information on the graduate and professional programs offered by accredited colleges and universities in the United States and U S territories and those in Canada Mexico

Europe and Africa that are accredited by U S accrediting bodies Books 2 through 6 are divided into sections that contain one or more directories devoted to individual programs in a particular field Book 2 contains more than 12 500 programs of study in 152 disciplines of the humanities arts and social sciences Time for Science Education Michael R. Matthews,2000-10-31 The book demonstrates the importance of history and philosophy of science for science education It provides a case study of the pendulum showing the pivotal role played by the pendulum in the Scientific Revolution It describes how the pendulum enabled the creation of accurate clocks that among other things enabled the long standing problem of longitude to be solved The book charts how the solution of the longitude problem was of enormous social economic and cultural significance for European and consequently world history Further the book shows how the discovery of the laws of pendulum motion by Galileo Huygens and Newton hinged on the acceptance of a new methodology for science The pendulum laws are a window through which to view the fascinating mixture of experiment mathematics and philosophy that characterized the foundations of modern science the Galilean Newtonian paradigm and distinguished it from Aristotelian medieval and common sense science The book covers learning about the nature of science navigation and the longitude problem ancient and medieval timekeeping Galileo's analysis of pendulum motion Huygens Hooke Newton and the pendulum clocks and culture science and philosophy the mechanical world view teaching about time and pendulum motion and teacher education and culture The book defends a liberal or contextual approach to the teaching of science It shows how understanding the scientific philosophical and cultural contexts and ramifications of the pendulum laws can allow teachers to plan more engaging lessons and conduct informative historical investigative experiments Students can re live history Contextual understanding of the pendulum allows connections to be made with other parts of the science curriculum and with other subject areas such as geography literature religion music and mathematics Readers will come away with a deeper understanding of the nature of science and its

Leadership through the Classics Gregory P Prastacos, Fuming Wang, Klas Eric Soderquist,2013-02-01 The unforeseeably complex socio economic and environmental challenges of the 21st century must be tackled by placing faith in the power of mankind to integrate established wisdom and new knowledge and in our ability to collaborate for a sustainable future Departing from this a global 2011 conference debating papers devoted to the impact of ancient philosophy focusing on Confucius and Aristotle in modern leadership and management was organized by Hanban the Athens University of Economics Business and the University of International Economics Business Beijing China A rich sourcebook for a broad audience this unique volume presents the wide array of conference contributions by international thought leaders Departing from a foundation of general concepts of ethics and leadership the book then delves into questions about how philosophy shape emerging economic and business systems to end with direct lessons from ancient philosophy for contemporary business challenges **Conrad** Gene M. Moore, Owen Knowles, John Henry Stape,1997 From the contents Conrad's debt to Marguerite Poradowska Susan Jones Conrad and Alfred Russel Wallace Amy Houston Conrad's The Idiots and Maupassant's

La mere aux monstres Gene M Moore Conrad Anatole France and the early French Romantic tradition some influences Owen Knowles One can learn something from Balzac Conrad and Balzac J H Stape      Classical Greece Ian Morris,1994-06-23 A reassessment of the archaeology of classical Greece using modern archaeological approaches to provide a richer understanding of Greek society      *Monumentality and the Roman Empire* Edmund Thomas,2007-11-15 Monumentality and the Roman Age presents a study of the concept of monumentality in classical antiquity asks what it is that the notion encompasses and how significant it was for the Romans themselves in moulding their individual or collective aspirations and identities      Freedom and Dissatisfaction in the Works of Agnes Heller Lucy Jane Ward,2016-12-27 Ward s book focuses on the work of the Hungarian philosopher Agnes Heller prominent member of the Budapest School a group of students who studied under the Marxist social theorist Gy rgy Luk cs For both Marx and Heller albeit in different ways dissatisfaction emerges as the inevitable result of the expansion of need s within modernity and as a catalyst for the development of anthropological wealth what Marx refers to as the human being rich in need Ward argues that dissatisfaction and the corresponding category of human wealth as both motif and method is central to grasping Heller s seemingly disparate writings While Marx postulates a radical overcoming of dissatisfaction Heller argues dissatisfaction is integral not only to the on going survival of modernity but also to the dynamics of both freedom and individual life In this way Heller s work remains committed to a position that both continually returns and departs is both with and against the philosophy of Marx This book will be of interest to scholars of political philosophy social theory critical theory and sociology      Sharing the Fish National Research Council,Commission on Geosciences, Environment, and Resources,Ocean Studies Board,Committee to Review Individual Fishing Quotas,1999-06-09 Most U S fish stocks are fully or over exploited and harvesting in many fisheries far exceeds sustainable levels The individual fishing quota IFQ is a relatively new instrument under which harvesting privileges are allocated to individual fishermen innovative yet controversial for its feared effect on fishing communities and individual fishermen Based on testimony from fishermen regulators environmentalists and others Sharing the Fish explores how IFQs might address the serious social economic and biologic issues raised by depleted fish stocks In their approach to a national policy on IFQs the panel makes direct recommendations to Congress the Secretary of Commerce the National Marine Fisheries Service regional fishery management councils state authorities and others This book provides definitions and examples reviews legislation and regulations and includes lessons learned from fisheries on the U S East Coast and in Alaska and in Iceland New Zealand and other nations The committee discusses the public trust doctrine management of common pool resources alternative and complementary approaches to the IFQ and more Sharing the Fish provides straightforward answers that will be important to fishery policymakers and regulators natural resource economists fishery managers environmental advocates and concerned fishermen and their communities      **A People's History of Classics** Edith Hall,Henry Stead,2020-02-26 A People s History of Classics explores the influence of the classical past on the lives of working

class people whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy in Britain and Ireland from the late 17th to the early 20th century This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working class culture was a Classics Free Zone Making use of diverse sources of information both published and unpublished in archives museums and libraries across the United Kingdom and Ireland Hall and Stead examine the working class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II They analyse a huge volume of data from individuals groups regions and activities in a huge range of sources including memoirs autobiographies Trade Union collections poetry factory archives artefacts and documents in regional museums This allows a deeper understanding not only of the many examples of interaction with the Classics but also what these cultural interactions signified to the working poor from the promise of social advancement to propaganda exploited by the elites to covert and overt class war A People s History of Classics offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland and is a must read not only for classicists but also for students of British and Irish social intellectual and political history in this period Further it brings new historical depth and perspectives to public debates around the future of classical education and should be read by anyone with an interest in educational policy in Britain today
