Gruffydd-Jones,2022 How do authoritarian regimes deal with pressure from the international community China s leaders have been subject to decades of international attention condemnation resolutions boycotts and sanctions over their treatment of human rights We assume that hearing about all this pressure will make the public more concerned about human rights and so regimes like the Chinese Communist Party CCP should do what they can to prevent this from happening In Hostile Forces Jamie Gruffydd Jones argues that while international pressure may indeed embarrass authoritarian leaders on the international stage it may in fact benefit them at home The targets of human rights pressure regimes like the Communist Party are not merely passive recipients but actors who can proactively shape and deploy that pressure for their own advantage Taking us through an exploration of the history of the Communist Party s reactions to foreign pressure from condemnation of Mao s crackdowns in Tibet to outrage at the outbreak of COVID 19 analysis of a novel database drawn from state media archives as well as multiple survey experiments and hundreds of interviews Gruffydd Jones shows that the CCP uses the most hostile pressure strategically and successfully to push citizens to view human rights in terms of international geopolitics rather than domestic injustice and reduce their support for change The book shines a light on how regimes have learnt to manage manipulate and resist foreign pressure on their human rights and illustrates how support for authoritarian and nationalist policies might grow in the face of a liberal
