*The step thief. First book - The French Way* Nicola Soloni, I steal steps That's right steps I take them away from those who arrive home late in the evening and can't wait to lie down on the armchair in the living room to get stupid in front of the TV From those who use the car for any trip especially short and maybe don't worry about parking in a double row in order to avoid the unnecessary effort of an extra meter on foot I steal from those who stay in bed all Sunday to soak up a solemn hangover from those who willingly exchange the tanning lamp with a walk outdoors or who go up into the mountains just to fill their stomachs in the restaurant near the state road I wait for the right moment come up like a hawk and grab them in the blink of an eye I collect them sorted on the shelf in the cellar one on top of the other When they reach an important figure I begin preparations I find a guide study the stages plan the trip It takes at least two years to raise the necessary amount Of the order of one million A long infinite wait which culminates in an outburst of irrepressible happiness The time has come The backpack is ready Let's go From 2006 to 2010 I was three times a pilgrim to Santiago de Compostela in the north of Spain The first along the Camino Francés the best known and most popular almost nine hundred kilometers from the Pyrenees to the ocean thirty six extraordinary unforgettable days The second starting from Seville and traveling along the Via de la Plata a thousand kilometers of desert solitude and silence a month and a half of exhausting trek The last one from Oviedo the capital of Asturias following in the noble footsteps of King Alfonso II the Chaste through the oldest itinerary dating back to the early ninth century and named for this Primitivo Along the way I tried to keep track of the encounters the landscapes the sensations I was experiencing To be able to remember and relive them I wrote in the late afternoon before dinner often every other day struggling with fatigue Simple phrases broken thoughts images of a moment to be re-knotted upon returning These pages want to be that knot a network intertwined with the thin thread of emotions The first book tells of the pilgrimage on the Camino Francés along the eight hundred and seventy kilometers that separate St Jean Pied de Port on the transalpine side of the Pyrenees from Fisterra the extreme strip of the West One after the other one million three hundred thousand steps Enjoy the reading

**Among the Pilgrims** Mary Victoria Wallis, 2004 Mary Victoria Wallis's Among the Pilgrims is the story of her two pilgrimages one by bicycle in 1997 and one on foot in 1998 in northern Spain along the thousand year old route to the shrine of St James the Apostle at Santiago de Compostela In ten chapters covering everything from medieval miracle tales to the modern perils of shin splints and flat tires she gives her view as a medievalist outdoor enthusiast and

inquiring pilgrim with Buddhist leanings of the five hundred mile trail to Santiago Among the Pilgrims takes the reader through a landscape of both the past and the present the real and the imagined through a topography not only of village and field but of mind and spirit as well In the cultural remains of medieval pilgrimage Mary searches for the spiritual seeds of modern pilgrimage Using a personal and impressionistic style Among the Pilgrims brings into relief the treasury of literature art architecture music philosophy and science that was born and transmitted along the Camino de Santiago Early in her first trip for instance Mary climbs the pass over the Pyrenees into the Spanish town of Roncesvalles Here in 779 AD Count Roland was slain blowing a dying note upon his magical oliphant to summon help from King Charlemagne thereby giving birth to Le Chanson de Roland and French literature On the dry plains of northern Castile she discovers the cradle of many Western musical traditions Further west she comes upon a 12th century Templars castle that Napoleon thought about blowing up only two hundred years ago Far from being isolated cultural artifacts these stories places and treasures are part of a heritage reaching into our own time They are also mirrors in which we can find ourselves

*Pilgrimage Pathways for the United States* James E. Mills, 2021-02-09 An inspirational argument for the creation of a new pilgrimage tradition in the United States Pilgrimage is a sacred tradition that has existed around the world for centuries Every year more than one hundred million devotees from different cultures and faiths embark on journeys to such holy sites as Santiago de Compostela Mecca and Banaras For some making a pilgrimage is a spiritual act while for others it is a secular experience of personal restoration And yet there has never existed a tradition of pilgrimage within the United States Cultural geographer James E Mills makes a compelling case for the creation of a network of American pilgrimage routes to heal societal divisions and foster a new ethos of humanitarianism and environmentalism He also addresses practical considerations for the development ownership and administration of future routes Pilgrimage Pathways for the United States is for anyone considering a pilgrimage and for those of us who are interested in connecting and protecting our natural world including environmentalists interfaith clergy political leaders community developers and activists

**The Way Is Made by Walking** Arthur Paul Boers, 2025-09-23 The Word Guild Canadian Christian Writing Awards Finalist Pilgrimage is a spiritual discipline not many consider Aren't the destinations far Don't they involve a lot of time and walking Just a few years ago Arthur Paul Boers wasn't thinking about pilgrimage either But he began to sense a deep call from God to walk the five hundred mile pilgrimage route known as Camino de Santiago ending in Santiago de Compostela Spain at a cathedral that is said to hold the relics of the apostle James In these pages he opens to us his incredible story of renewed spirituality springing from an old old path walked by millions before him It's a story of learning to pray in new ways embracing simplicity forming community living each day centered and focused depending on God to provide Joined by hundreds of others from all over the world Boers points the way to deeper intimacy with God a way made by walking in faith

**Walking into the Void** Arpad Szakolczai, Agnes Horvath, 2017-10-17 The book starts by discussing the significance of walking for the experience of being human including a comparative study of the language and cultures of walking It then reviews in detail relying on archaeology two turning points of human history the emergence of cave art sanctuaries and a new cultural practice of long distance pilgrimages implying a descent into such caves thus literally the void and the abandonment of walking culture through settlement at the end of the Ice Age around the time when the visiting of cave sanctuaries also stopped The rise of philosophy and Christianity is then presented as two returns to walking The book closes by looking at the ambivalent relationship of contemporary modernity to walking where its radical abandonment is combined with attempts at returns The book ventures an unprecedented genealogy of walking culture bringing together archaeological studies distant in both time and place and having a special focus on the significance of the rise of representative art for human history Our genealogy helped to identify settlement not as the glorious origin of civilisation but rather as a source of an extremely problematic development The findings of the book should be relevant for social scientists as well as those interested in walking and its cultural and civilisational significance or in the direction and meaning of human history
