## **Tenants Of The Earth:**

**Tenants of the Earth** Sandra Paretti,1977      **Earth** Frank H. T. Rhodes,2012-06-10 It s impossible to grasp the whole planet or integrate all the descriptions of it But because we live here we have to try This is not just an artistic compulsion or an existential yearning still less an academic exercise It s a survival issue This is the only planet we have We re stuck here and we don t own the place it would be the height of arrogance to assume that we do We re tenants here not owners but we re tenants with hope for a long term tenancy We want to extend our lease just as far as we can from Earth A Tenant s Manual In Earth A Tenant s Manual the distinguished geologist Frank H T Rhodes President Emeritus of Cornell University provides a sweeping accessible and deeply informed guide to the home we all share showing us how we might best preserve the Earth s livability for ourselves and future generations Rhodes begins by setting the scene for our active planet and explaining how its location and composition determine how the Earth works and why it teems with life He emphasizes the changes that are of concern to us today from earthquakes to climate change and the clashes over the energy resources needed for the Earth s exploding population He concludes with an extended exploration of humanity s prospects on a complex protean and ultimately finite world It is not a question of whether the planet is sustainable the challenge facing life on Earth and the life of the Earth is whether an expanding and high consumption species like ours is sustainable Only new resources new priorities new policies and most of all new knowledge can reverse the damage that humanity is doing to our home and ourselves A sustainable human future Rhodes concludes in this eloquent sobering but ultimately optimistic book will require a sense of responsible stewardship for we are not owners of this planet we are tenants Surveying the systems large and small that govern Earth s processes and influence its changes Rhodes addresses the negative consequences of human activities for the health of its regulatory systems but offers practical suggestions as to how we might effect repairs or at least limit further damage to our home      **The Most Southern Place on Earth** James C. Cobb,1994-08-04 Cotton obsessed Negro obsessed Rupert Vance called it in 1935 Nowhere but in the Mississippi Delta he said are antebellum conditions so nearly preserved This crescent of bottomlands between Memphis and Vicksburg lined by the Yazoo and Mississippi rivers remains in some ways what it was in 1860 a land of rich soil wealthy planters and desperate poverty the blackest and poorest counties in all the South And yet it is a cultural treasure house as well the home of Muddy Waters B B King Charley Pride Walker Percy Elizabeth Spencer and Shelby Foote Painting a fascinating portrait of the development and survival of the Mississippi Delta a society and economy that is often seen as the most extreme in all the South James C Cobb offers a comprehensive history of the Delta from its first white settlement in the 1820s to the present Exploring the rich black culture of the Delta Cobb explains how it survived and evolved in the midst of poverty and oppression beginning with the first settlers in the overgrown disease ridden Delta before the Civil War to the bitter battles and incomplete triumphs of the civil rights era In this comprehensive account Cobb offers new insight into the most southern place on earth untangling the enigma of grindingly

poor but prolifically creative Mississippi Delta      *Rooted in the Earth* Dianne D. Glave, 2010-08 With a basis in environmental history this groundbreaking study challenges the idea that a meaningful attachment to nature and the outdoors is contrary to the black experience The discussion shows that contemporary African American culture is usually seen as an urban culture one that arose out of the Great Migration and has contributed to international trends in fashion music and the arts ever since However because of this urban focus many African Americans are not at peace with their rich but tangled agrarian legacy On one hand the book shows nature and violence are connected in black memory especially in disturbing images such as slave ships on the ocean exhaustion in the fields dogs in the woods and dead bodies hanging from trees In contrast though there is also a competing tradition of African American stewardship of the land that should be better known Emphasizing the tradition of black environmentalism and using storytelling techniques to dramatize the work of black naturalists this account corrects the record and urges interested urban dwellers to get back to the land      **Exhausting the Earth** Peter C. Perdue, 2020-05-11 Recent agricultural reforms in the People's Republic of China have generated great interest in the ability of the Chinese state traditional and modern to accommodate rapid economic change *Exhausting the Earth* examines an earlier period from the late Ming to the mid Qing era marked by tremendous population growth extension of the market and increases in agricultural productivity Peter C Perdue describes the relationship between agricultural production and state policies toward taxation land clearance dike building property rights and agriculture in Hunan During the late seventeenth and early eighteenth centuries Hunan changed from a peripheral sparsely populated region into a crowded highly commercialized grain exporting province State policies had stimulated this growth but by the early nineteenth century serious signs of overpopulation social conflict and ecological exhaustion had surfaced Local officials were conscious of these dangers but the influence of the state on the economy was so weakened that they could not alter the ominous trends The stage was set for the disintegration and rebellion of the nineteenth century This in depth study of official policies in one region over a long stretch of time illuminates the dynamics of official initiatives and local response

*Building a Heaven on Earth* Albert L. Park, 2014-12-31 Why and how did Korean religious groups respond to growing rural poverty social dislocation and the corrosion of culture caused by forces of modernization under strict Japanese colonial rule 1910-1945 Questions about religion's relationship and response to capitalism industrialization urbanization and secularization lie at the heart of understanding the intersection between colonialism religion and modernity in Korea Yet getting answers to these questions has been a challenge because of narrow historical investigations that fail to study religious processes in relation to political economic social and cultural developments In *Building a Heaven on Earth* Albert L Park studies the progressive drives by religious groups to contest standard conceptions of modernity and forge a heavenly kingdom on the Korean peninsula to relieve people from fierce ruptures in their everyday lives The results of his study will reconfigure the debates on colonial modernity the origins of faith based social activism in Korea and the role of religion in a

modern world Building a Heaven on Earth in particular presents a compelling story about the determination of the Young Men s Christian Association YMCA the Presbyterian Church and the Ch ndogyo to carry out large scale rural movements to form a paradise on earth anchored in religion agriculture and a pastoral life It is a transnational story of leaders from these three groups leaning on ideas and systems from countries such as Denmark France Japan and the United States to help them reform political economic social and cultural structures in colonial Korea This book shows that these religious institutions provided discursive and material frameworks that allowed for an alternative form of modernity that featured new forms of agency social organization and the nation In so doing Building a Heaven on Earth repositions our understandings of modern Korean history

*The Kingdom of the Son of Man on Earth* Maria Cordova,2009-09 The prophet who has a dream let him tell a dream and he who has My Word let him speak My Word faithfully Jeremiah 23 28 The Word of the LORD God came to me in a dream the first time in 1982 and I was told to proclaim the coming of the Son of Man for seventeen years My full testimony biography and the lessons God had taught me throughout those years are written in the book The Witness to the Coming of Jesus Christ published in 1999 The LORD God spoke to me a second time in a dream and said TELL MY COVENANT PEOPLE THEY WILL NOT BE HARMED The third time the Messiah had come He awakened me from a deep sleep and released the Seventh Seal These three prophetic events were given to make known to the church and the world our current position in Biblical Prophecy The LORD God has also led me through a series of events which revealed that the invisible Kingdom of the Son of Man had come Although it is concealed the Messiah revealed it two thousand years ago through many parables in the Holy Bible Now I have been called to reveal its existence so that others may prepare to enter into it Further studies will leave no doubt that this kingdom is on earth now You will see and understand The unseen Kingdom of the Son of Man The Kingdom through the faith of a child What will be required to enter His Kingdom How the dead in our Messiah will enter in first When the faithful saints will be transferred into it The warnings and consequences of being left outside What will happen to the world after the Kingdom doors close

*The Congregationalist and Christian World* ,1909

**Owning the Earth** Andro Linklater,2014-01-01 Barely two centuries ago most of the world s productive land still belonged either communally to traditional societies or to the higher powers of monarch or church But that pattern and the ways of life that went with it were consigned to history as a result of the most creative and at the same time destructive cultural force in the modern era the idea of individual exclusive ownership of land This notion laid waste to traditional communal civilisations displacing entire peoples from their homelands and brought into being a unique concept of individual freedom and a distinct form of representative government and democratic institutions Other great civilizations in Russia China and the Islamic world evolved very different structures of land ownership and thus very different forms of government and social responsibility The seventeenth century English surveyor William Petty was the first man to recognise the connection between private property and free market capitalism the American radical Wolf Ladejinsky redistributed land

in Japan Taiwan and South Korea after the Second World War to make possible the emergence of Asian tiger economies Through the eyes of these remarkable individuals and many more including Chinese emperors and German peasants Andro Linklater here presents the evolution of land ownership to offer a radically new view of mankind s place on the planet

**Salt of the Earth** Ralph A. Thaxton Jr.,2024-03-29 On October 1 1949 a rural based insurgency demolished the Nationalist government of Chiang kai Shek and brought the Chinese Communists to national power How did the Chinese Communists gain their mandate to rule the countryside In this pathbreaking study Ralph A Thaxton Jr provides a fresh and strikingly original interpretation of the political and economic origins of the October revolution Salt of the Earth is based on direct interviews with the village people whose individual and collective protest activities helped shape the nature and course of the Chinese revolution in the deep countryside Focusing on the Party s relationship with locally esteemed non Communist leaders the author shows that the Party s role is best understood in terms of its intimate connections with local collective activism and with existing modes of local protest both of which were the product of rural people acting on their own grievances interests and goals The author s collection and use of oral histories from the last remaining eyewitnesses and written corroborative materials is a remarkable achievement his new interpretation of why China s rural people supported and joined the Communists in their quest for state power is dramatically different from what has come before This book will stimulate debates on the genesis of popular mobilization and the growth of insurgency for decades to come This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

**The Earth is the Lord's** João Paulo Thomaz de Aquino,2025-02-28 Land reformation is a relevant and important subject especially in developing countries With this significance in mind what can we learn from the examples in Luke Acts that speak to our current view of the redistribution of land ownership rights In this skilful and pioneering work Dr Jo o Paulo Thomaz de Aquino explores the present day implications for viewing land as an economic factor through examining the parallels found in Luke Acts This in depth study reveals how land was viewed and used in a radically different fashion by Jesus and his followers when compared to Israel under the rule of the Roman Empire Exploring how Luke draws upon the Old Testament ethics specifically the jubilee legislation Dr Thomaz de Aquino proposes that Jesus presents God as the ultimate owner of the land and in light of that we are called to steward it responsibly An excellent resource for scholars and all those interested in the social implications of the gospel

**Reforestation the Earth** Thomas K. Rudel,2023-09-05 Forests offer a natural solution to the climate crisis Conserving and expanding them not only removes carbon from the atmosphere but also protects and fosters biodiversity Yet the results of elite driven reforestation initiatives have been disappointing and in many world regions deforestation continues relentlessly Thomas K Rudel examines a wide range of conservation and reforestation

efforts to shed new light on the social factors that lead to success He details effective coalition building strategies and organizational models that have protected restored and expanded forests around the world Rudel argues that successful reforestation projects bring together diverse groups of people with a stake in the land and a commitment to collective decision making They give voice to different economic and social interests including small farmers Indigenous peoples loggers ranchers government officials NGO personnel international donors and climate activists These varied coalition members each make commitments to promote forests Farmers limit the extent of lands under cultivation governments protect land tenure for smallholders and wealthy donors make payments for environmental protections Timely and accessible Reforesting the Earth offers a guide to scaling up local efforts to sequester carbon and makes a powerful case for a global reforestation movement

**Look to the Earth** Clarence R. Geier, Jr., 1996-09 A compilation of archaeology research devoted to Civil War period sites Essays look beyond the Civil War as a military event and demonstrate historical archaeology's use in reconstructing the lives of freed slaves poor whites and rural farmers and millers Topics include battlefield analysis and reconstruction fortifications and camp life and the role of espionage and foreign intelligence Includes bandw photos and diagrams Annotation copyright by Book News Inc Portland OR **Augsburg Sermons 3** Augsburg Publishing, 1992 This new volume includes 64 sermons based on the Series A Gospel texts primarily from Matthew for every Sunday and major festival of the church year First volume in a series of three **Christ Power and Earth Wisdom** Marko

Pogačnik, 2019-10-06 Human evolution has now arrived at a decisive crossroads The future of humankind on Earth depends on whether people recognize their determining role in the evolution of the consciousness of Earth Marko Pogačnik Humanity today faces a unique task to overcome the thousand year old division between heaven and earth spirit and matter This says Marko Pogačnik is our present day challenge But we have an important ally in this work in the being of Jesus also known as Christ whose teachings are intended to help us at this critical time of human development Historically however Jesus words of wisdom were harnessed to the construction of an earthly religion and much of their deeper meaning was lost in the process Christ Power and Earth Wisdom is the story of the author's discovery of a Fifth Gospel woven invisibly into the four canonical Gospels It teaches humanity how to live positively in the third millennium Bringing together knowledge of elemental beings Earth science and Christ the author has translated over one hundred of Jesus sayings into a language that the modern mind can understand He identifies blockages in the Biblical gospels that have prevented the Spirit of Christ from manifesting in the past era But the time is now ripe for understanding the multilayered reality of these teachings Based on methods of investigation and perception that Pogačnik has developed over many decades of work in healing the various dimensions of Earth's landscape and nature he deciphers the hidden holistic messages in Christ's teachings dismantling the obstacles that have arisen through outdated interpretations The text is complemented with Pogacnik's energetically charged drawings forming a feeling counterpart to the thought flow of the book A new Postscript offers an important update relating

to methods of gaining a broader spiritual perception of reality in the present

**A Treatise on the Origin, Qualities, and Cultivation of Moss-earth, with Directions for Converting it Into Manure** William Aiton, 1811

**Down to Earth** David Faure, Helen F. Siu, 1995 The contributors argue that local society in the Delta was integrated into the Chinese state through a series of changes that involved constant redefinition of lineages territories and ethnic identities The emergence of lineages in the Ming and Qing dynasties the deployment of deities in local alliances and the shrewd use of ethnic labels provided terms for a discourse that reified the criteria for membership in Chinese local society The ideology produced by these developments continued to serve as the norm for the legitimation of power in local society through the Republican period

**The Rich Earth Between Us** Shelby Johnson, 2024-03-05 In this theory rich study Shelby Johnson analyzes the works of Black and Indigenous writers in the Atlantic World examining how their literary production informs modes of being that confronted violent colonial times Johnson particularly assesses how these authors connected to places whether real or imagined and how those connections enabled them to make worlds in spite of the violence of slavery and settler colonialism Johnson engages with works written in a period engulfed by the extraordinary political and social upheavals of the Age of Revolution and Indian Removal and these texts which include not only sermons life writing and periodicals but also descriptions of embodied and oral knowledge as well as material objects register defiance to land removal and other forms of violence In studying writers of color during this era Johnson probes the histories of their lived environment and of the earth itself its limits its finite resources and its metaphoric mortality in a way that offers new insights on what it means to imagine sustainable connections to the ground on which we walk
