Tender Tyrant Nadia Boulanger:

The Tender Tyrant, Nadia Boulanger Alan Kendall, 1976 It is well over sixty years since Nadia Boulanger decided to devote her life to the teaching of music For most of that time she has been in the forefront of those who have shaped the musical taste and music making of the twentieth century Her precepts on the arts of composing and performing have influenced most of the leading musicians of our time In this the first account of her life as a teacher Alan Kendall discusses her methods her ideals and what music means her ideals and what music means to Nadia Boulanger and what Nadia Boulanger wants music to mean to the world She began her long career in 1904 At the age of seventeen Nadia Boulanger recognized that the musical talents of her younger sister Lili were far superior to her own From that time on she devoted more of her attention to her brilliant sister but still had enough time to work on her own career and in 1908 Nadia Boulanger won the Prix de Rome second class Lili Boulanger s youthful genius was recognized in 1913 when she became the first woman to win the Prix de Rome first class Unfortunately Lili s brilliance was one with the instinct of genius marked by death and she died in 1918 This tragic loss to Nadia Boulanger has not diminished with the passing of time It was the summer of 1921 when she began her courses at the American Conservatory in Fontainebleau that Nadia Boulanger s career took on an international dimension In that year three young American composers Melville Smith Aaron Copland and Virgil Thomson each found his way independently to her studio From then on the trickle of foreign students grew stronger In 1927 Lennox Berkeley on Ravel s advice studied with her The list of the now famous grew and grew and includes Dinu Lipatti Clifford Curzon Igor Markevitch Yehudi Menuhin Edwin Roxburgh Hughes Cu nod Nicholas Maw Walter Piston Roy Harris Quincy Jones among others Running like a leit motiv through her teaching life is the close association between Nadia Boulanger and Stravinsky until the time of his death Now in her ninetieth year Nadia Boulanger still conducts her courses still teaches and still guides aspiring musicians with an inextinguishable devotion and zeal Dust jacket *The Musical Work of Nadia Boulanger* Jeanice Brooks, 2013-04-25 Nadia Boulanger composer critic impresario and the most famous composition teacher of the twentieth century was also a performer of international repute Her concerts and recordings with her vocal ensemble introduced audiences on both sides of the Atlantic to unfamiliar historical works and new compositions This book considers how gender shaped the possibilities that marked Boulanger s performing career tracing her meteoric rise as a conductor in the 1930s to origins in the classroom and the salon Brooks investigates Boulanger s promotion of structurally motivated performance styles showing how her ideas on performance of historical repertory and new music relate to her teaching of music analysis and music history The book explores the way in which Boulanger s musical practice relied upon her understanding of the historically transcendent masterwork in which musical form and meaning are ideally joined and shows how her ideas relate to broader currents in French aesthetics and culture **Nadia Boulanger** Nadia Boulanger, 2020 The first collection ever of essays and reviews by the renowned pedagogue composer and conductor providing fresh perspectives

Pioneers in their fields and two of the best known women in music in the twentieth century Nadia and Lili Boulanger have previously been considered in isolation from one another Yet as Caroline Potter s new book demonstrates their careers were closely linked during Lili Boulanger s short life 1893 1918 and there are several intriguing connections between their musical works This biography also provides the first full analysis of the Boulanger sisters musical styles placing them within the context of French musical history Their lives are also a case study in the issues of gender which surround music making even to the present day Despite an unusually privileged upbringing Nadia and Lili Boulanger exemplify the struggle women experienced when attempting to enter the professional music world Lili became the first woman to win the Prix de Rome in 1913 and

Nadia gained second place in 1908 Yet in spite of this initial success Nadia Boulanger was to give up composing in her thirties and devoted the remainder of her long life to teaching Her pupils included several of the great composers of the century including Aaron Copland and Elliott Carter This book focusing on their musical careers is essential reading for anyone interested in French music of the twentieth century *Nadia Boulanger and Her World* Jeanice Brooks,2020-11-19

The Composer As Intellectual Jane F. Fulcher,2005-08-25 In The Composer as Intellectual musicologist Jane Fulcher reveals the extent to which leading French composers between the World Wars were not only aware of but also engaged intellectually and creatively with the central political and ideological issues of the period Employing recent sociological and historical insights she demonstrates the extent to which composers particularly those in Paris since the Dreyfus Affair considered themselves and were considered to be intellectuals and interacted closely with intellectuals in other fields Their consciousness raised by the First World War and the xenophobic nationalism of official culture some joined parties or movements allying themselves with and propagating different sets of cultural and political social goals Fulcher shows how these composers furthered their ideals through the specific language and means of their art rejecting the dominant cultural exclusions or constraints of conservative postwar institutions and creatively translating their

cultural values into terms of form and style This was not only the case with Debussy in wartime but with Ravel in the twenties when he became a socialist and unequivocally refused to espouse a narrow exclusionary nationalism It was also the case with the group called Les Six who responded culturally in the twenties and then politically in the thirties when most of them supported the programs of the Popular Front Others could not be enthusiastic about the latter and largely excluded from official culture sought out more compatible movements or returned to the Catholic Church Like many French Catholics they faced the crisis of Catholicism in the thirties when the church not only supported Franco but Mussolini's imperialistic aggression in Ethiopia While Poulenc embraced traditional Catholicism Messiaen turned to more progressive Catholic movements that embraced modern art and insisted that religion must cross national and racial boundaries Fulcher demonstrates how closely music had become a field of clashing ideologies in this period She shows also how certain French composers responded and how their responses influenced specific aspects of their professional and stylistic development She thus argues that from this perspective we can not only better understand specific aspects of the stylistic evolution of these composers but also perceive the role that their art played in the ideological battles and in heightening cultural political awareness of their time

Ferruccio Busoni and His Legacy Erinn E. Knyt, 2017-05-22 An analysis of the composer's unconventional teaching style and philosophy his relationship with his students and his effect on twentieth century music Many students of renowned composer conductor and teacher Ferruccio Busoni had illustrious careers of their own yet the extent to which their mentor's influence helped shape their success was largely unexplored until now Through rich archival research including correspondence essays and scores Erinn E Knyt presents an evocative account of Busoni's idiosyncratic pedagogy focused on aesthetic ideals rather than methodologies or techniques and how this teaching style and philosophy can be seen and heard in the Nordic inspired musical works of Sibelius the unusual soundscapes of Var se the polystylistic meldings of music and technology in Louis Gruenberg's radio operas and film scores the electronic music of Otto Luening and the experimentalism of Philip Jarnach Equal parts critical biography and interpretive analysis Knyt's work compels a reconsideration of Busoni's legacy and puts forth the notion of a Busoni School as one that shaped the trajectory of twentieth century music Erinn Knyt's *Ferruccio Busoni and His Legacy* is a most welcome addition to the literature on Busoni as a fine example of research based on primary sources Bach
