The Magnificent Adventure Emerson Hough, 1916

The Magnificent Adventure Emerson Hough, 2019-12-17

In *The Magnificent Adventure* Emerson Hough crafts a riveting narrative that intertwines the grandeur of the American frontier with the intimate experiences of its pioneers. The novel is characterized by Hough's signature lyrical prose capturing the spirit of adventure and exploration that defined the late 19th century. Through vivid descriptions and robust characterizations, Hough immerses readers in a world rich with both the beauty and peril of the natural landscape while addressing broader themes of ambition, courage, and the pursuit of the American Dream against the backdrop of a rapidly changing society. Emerson Hough was deeply influenced by his own experiences in the West, having worked as a journalist and been involved in the burgeoning outdoor and conservation movements. His background as a travel writer infused his storytelling with authenticity and a palpable sense of the wild. Hough's understanding of the complexities of human motivations and the environmental challenges faced by settlers lends depth to his characters, making them relatable and engaging embodiments of their era. This compelling tale is highly recommended for readers who appreciate historical fiction that not only entertains but also provokes thoughtful reflection on America's past. *The Magnificent Adventure* resonates with those interested in the interplay between human aspiration and the indomitable spirit of the landscape, making it a must-read for fans of American literature.

Metal Vapour Synthesis in Organometallic Chemistry J. R. Blackborow, D. Young, 2012-12-06

Metal Vapour Synthesis (MVS) can be defined as the use in synthesis of high-temperature gaseous species such as metal atoms by their reactions with themselves or other materials in a condensed phase. This short book, covering the literature up to the middle of 1979, describes MVS in organic chemistry, i.e. the reactions of metal atoms with various predominantly organic substrates in the synthesis and reactivity studies of organic and organometallic compounds. In order to effectively describe all the underlying principles and to present a cohesive picture of pertinent metal-atom processes in condensed organic phases, some inorganic substrates such as rare gases, dinitrogen, dioxygen, dihalogens, and inorganic halides have been included. For similar reasons, we have used where relevant information provided by the closely related technique of Matrix Isolation Spectroscopy (MIS). After an introductory chapter which gives the basic principles and includes a brief critique of the technique, the book is divided into three further chapters dealing respectively with: a) experimental techniques, b) behaviour of metal atoms in matrices, and c) results of preparative experiments. While not being encyclopaedic, the book describes or refers to all noteworthy areas, if not in the deliberately short text, in the many tables and figures.

The Magnificent Adventure: Being the Story of the World's Greatest Exploration and the Romance of a Very Gallant Gentleman Emerson Hough,2020-09-28 A woman tall somewhat angular dark of hair and eye strong of features a woman now approaching middle age sat looking out over the long tree clad slopes that ran down from the gallery front of the mansion house to the gate at the distant roadway She had sat thus for some moments many moments her gaze intently fixed as though waiting for something something or someone that she did not now see but expected soon to see It was late afternoon of a day so beautiful that not even old Albemarle beauty spot of Virginia ever produced one more beautiful not in the hundred years preceding that day nor in the century since then For this was more than a hundred years ago and what is now an ancient land was then a half opened region settled only here and there by the great plantations of the well to do The house that lay at the summit of the long and gentle slope flanked by its wide galleries its flung doors opening it from front to rear to the gaze as one approached had all the rude comfort and assuredness usual with the gentry of that time and place It was the privilege and the habit of the Widow Lewis to sit idly when she liked but her attitude now was not that of idleness Intentness reposeful acceptance of

life rather showed in her motionless long sustained position She was patient as women are but her strong pose its freedom from material support her restrained power to do or to endure gave her the look of owning something more than resignation something more than patience A strong figure of a woman one would have said had one seen her sitting on the gallery of her old home a hundred and twenty four years ago The Widow Lewis stared straight down at the gate a quarter of a mile away with yearning in her gaze But as so often happens what she awaited did not appear at the time and place she herself had set There fell at the western end of the gallery a shadow a tall shadow but she did not see it She did not hear the footfall not stealthy but quite silent with which the tall owner of the shadow came toward her from the gallery end It was a young man or rather boy no more than eighteen years of age who stood now and gazed at her after his silent approach so like that of an Indian savage Half savage himself he seemed now as he stood clad in the buckskin garments of the chase then not unusual in the Virginian borderlands among settlers and hunters and not held out among a people so often called to the chase or to war
