Tener O Ser:

Del tener al ser Erich Fromm, 2000 A través de la autoconciencia y del análisis de uno mismo método de recuperación del ser que el autor practica durante toda su vida Erich Fromm nos propone en este bello libro un arte de vivir cuyos pilares son el amor la razón y la actividad productiva Lejos de la posibilidad de adquirir sabiduría vital sin ningún esfuerzo o de sufrimiento engañoso alimentado por las ofertas de la ideología consumista Fromm propone redescubrir las fuerzas físicas psíquicas y espirituales del hombre así como sus posibilidades de independencia con el fin de abandonar la orientación hacia el tener típica de las condiciones económicas políticas y sociales de la sociedad industrial moderna en su organización del trabajo y en su modo de producción y asumir una nueva orientación hacia el ser Así Erich Fromm propone transformar las estructuras los valores espirituales y sobre todo los socioeconómicos para ofrecer al individuo la oportunidad de encontrarse a sí mismo

age began when people no longer lived at the mercy of nature and instead took control of it We planted crops so we didn t
have to forage and produced planes trains and cars for transport With televisions and computers we don t have to leave home
to see the world Somewhere in that process the natural tendency of humankind went from one of being and of practicing our

Translation Pedro Mogorrón Huerta,Antonio Albaladejo-Martínez,2018-11-15 In all languages humans frequently use
linguistic combinations called phraseological units PUs in communicative acts These PUs are characterized by their
institutionalized fixation and in many cases by their opacity Traditionally the work on phraseology has placed the emphasis
on the total fixing of components and structures of verbal expressions Variation in PUs is currently an uncontested fact and
has been extensively studied and analyzed In addition in the case of languages like Spanish English French spoken in many
countries new creations or diatopic variants arise While these diatopic expressions have been collected or analyzed in their
territory of influence no comprehensive collection showing all the expressions and contrastive analysis to observe the
similarities and differences between these diatopic creations with all their idiosyncratic and cultural references have been
made so far The content of this volume deals with numerous linguistic lexicographic and translational problems in the
context of language variation in general as well as specifically related to diatopic variation The aim is to make progress in
these challenging and highly interesting areas which still pose many comprehension and translation problems *Speak*
