The Body as Capital

Vinodh Venkatesh, 2015-12-10 Through economic liberalization and the untethering of labor and production markets masculinity as hegemon has entered a crisis stage Renegotiated labor and familial orders have triggered a widespread cultural renegotiation of how masculinity operates and is represented This holds especially true in Latin America Addressing this Vinodh Venkatesh uses contemporary Latin American literature to examine how masculinity is constructed and conceived The Body as Capital centers socioeconomic and political concerns anxieties and paradigms on the male anatomy and on the matrices of masculinities presented in fiction Developing concepts such as the market of masculinities and the transnational theater of masculinities the author explains how contemporary fiction centers the male body and masculine expressions as key components in the relationship between culture space and global tensile forces Venkatesh includes novels by canonical and newer writers from Mexico Central America the Caribbean Peru and Chile He focuses on texts produced after 1990 coinciding with what has popularly been termed the neoliberal experiment In addition to probing well known novels such as *La fiesta del Chivo* and *La mujer habitada* and their accompanying body of criticism The Body as Capital defines and examines several masculine tropes that will be of interest to scholars of contemporary Latin American literature and gender studies Ultimately Venkatesh argues for a more holistic approximation of discursive gender that will feed into other angles of criticism forging a new path in the critical debates over gender and sexuality in Latin American writing

The Language of the In-Between Erika Almenara, 2022-10-04 Often the process of modern state formation is founded on the marginalization of certain groups and Latin America is no exception In The Language of the In Between Erika Almenara contends that literary production replicates this same process Looking at marginalized communities in Chile and Peru particularly writers who are transvesti trans cuir queer and Indigenous the author shows how these writers stake a claim for the liminal space that is neither one thing nor the other This allows a freedom to expose oppression and to critique a national identity based on erasure By employing a language of nonnormative gender and sexuality to dispute the state projects of modernity and modernization the voice of the poor and racialized transvesti evolves from powerlessness to become an agent of social transformation Tengo miedo, torero Augusto Algueró, 1950

Translating the Queer Héctor Domínguez Ruvalcaba, 2016-11-15 What does it mean to queer a concept If queerness is a notion that implies a destabilization of the normativity of the body then all cultural systems contain zones of discomfort relevant to queer studies What then might we make of such zones when the use of the term queer itself has transcended the fields of sex and gender becoming a metaphor for addressing such cultural phenomena as hybridization resignification and subversion Further still what should we make of it when so many people are reluctant to use the term queer because they view it as theoretical colonialism or a concept that loses its specificity when applied to a culture that signifies and uses the body differently Translating the Queer focuses on the dissemination of queer knowledge concepts and representations throughout Latin America a migration that has been accompanied by concomitant processes of translation adaptation and epistemological resistance
