ABORDAGEM DE CORPUS PARA A ANÁLISE
DE TEMPO E ASPECTO EM NARRATIVAS

Abstract: This research, presented here, centers itself on how both tense and aspect are useful for the narrative analysis. This study presupposes narratives as texts with a temporal elaboration and progression, what demands abilities such as *fore-* and *backgrounding*. Such cognitive perspective is expected to dialogue with the Labovian position in the sense that the oppositions of *fore-* and *background* may be marked in the verbs. In order to understand how verbal tense and aspect are organized in spontaneous speech narratives in Brazilian Portuguese, the monologues from C-ORAL-BRASIL I *minicorpus* (RASO; MELLO, 2012) were manually annotated for the verbal categories as well as the Labovian categories (orientation, complication and evaluation). The results point to a tendency that complication will be marked mainly by simple past (*pretérito perfeito do indicativo*), while evaluation and orientation will be marked by present (*presente do indicativo*) and imperfective. Lexical aspect has shown an asymmetry between telic and non-telic verbs, and a slightly higher proportion of verbs of accomplishment and achievement in structures of complication.

Keywords: Narrative analysis. Foreground/Background. Tense and aspect. Corpus linguistics.

Resumo: A pesquisa aqui apresentada centra-se em como os parâmetros de tempo e aspecto são úteis para a análise da narrativa. Esse estudo pressupõe narrativas como textos com uma elaboração e progressão temporal que demanda as capacidades cognitivas de *fore-* e *backgrounding*. Essa perspectiva cognitiva dialoga com a posição laboviana para a análise da narrativa no sentido em que a oposição de Figura e Fundo podem ser marcadas por verbos. Para entender como tempo e aspecto verbais são organizados em narrativas de fala espontânea de português brasileiro, os monólogos do *minicorpus* C-ORAL-BRASIL I (RASO; MELLO, 2012) foram anotados quanto a suas categorias verbais e categorias labovianas (orientação, complicação e avaliação). Os resultados apontam para uma tendência em marcar majoritariamente a complicação com o pretérito perfeito do indicativo, enquanto a avaliação e orientação serão marcadas pelo presente do indicativo

Tense and Aspect in Caesar's Narrative Fredrik Oldsjö, 2001 **Julius Caesar's Bellum Civile and the Composition of a New Reality** Ayelet Peer, 2016-03-09 In his *Commentarii de Bello Civili* Julius Caesar sought to re-invent his image and appear before his present and future readers in a way which he could control and at times manipulate Offering a new interpretation of the *Bellum Civile* this book reveals the intricate literary world that Caesar creates using sophisticated techniques such as a studied choice of vocabulary rearrangement of events use of indirect speech and more Each of the three books of the work is examined independently to set out the gradual transformation of Caesar's literary persona in step with his ascent in the real world By analysing the work from Caesar's viewpoint the author argues that by adroit presentation and manipulation of historical circumstances Caesar creates in his narrative a different reality one in which his conduct is justified The question of the *res publica* is also a key point of the volume as it is in the *Bellum Civile* and the author argues that Caesar purposely does not present himself as a Republican contrary to commonly held views Employing detailed philological analyses of Caesar's three books on the Civil War this work significantly advances our understanding of Caesar as author and politician

Death and Tenses Neil Kenny,2015 This book is probably the first to explore a question that can crop up in everyday situations and that has a long history in what tense should we refer to the dead That question relates both to the recently deceased and also to those who died long ago for example in antiquity The book explores it through many kinds of texts mainly in French but also in Latin produced in sixteenth and early seventeenth century France including by celebrated authors Rabelais Montaigne Did tenses refer to the dead in ways that contributed to granting them differing degrees of presence and absence Did tenses communicate something about posthumous presence and absence that could not easily be communicated by other means This is primarily a work of literary and cultural history but it also draws on linguistics It compares its early modern examples with modern French and English asking whether changes in more recent beliefs in posthumous survival have led to different tense usage *Aktionsart in the Old High German Passive with special reference to the Tatian and Isidor translations* Howard Jones,2025-06-05 This study sets out an Aktionsart based model to account for the distribution of uuesan and uuerdan in the Old High German passive An empirical analysis of major Old High German works demonstrates that the choice of copula can be explained by this model or by precisely defined departures from it each of which represents a form of grammaticalization Detailed examination of the Tatian and Isidor translations from Latin also shows that the choice of passive forms in each work is the response to the challenge of translating between two languages with different verb systems as well as to the contrasting demands of each work Diese Studie entwirft ein Modell der Aktionsart um die Verteilung von uuesan und uuerdan im althochdeutschen Passiv zu untersuchen Eine empirische Analyse bedeutender althochdeutscher Schriften zeigt dass die Wahl der Kopula entweder mithilfe dieses Modells oder im Licht klar definierter Abweichungen von diesem erkl rt werden kann wobei jede Abweichung eine Form von Grammatikalisierung darstellt Zudem belegen eingehende Untersuchungen der Tatian und Isidor bersetzungen aus dem Lateinischen dass die Wahl der Passivformen in jedem Werk auch immer ein Ergebnis der Besch ftigung mit zwei Sprachen mit verschiedenen Verbalsystemen ist und sich aus den unterschiedlichen Anforderungen eines jeden Textes ergibt **Complex Sentences, Grammaticalization, Typology** Philip Baldi,Pierluigi Cuzzolin,2011-10-27 New Perspectives on Historical Latin Syntax

Complex Sentences Grammaticalization Typology is the fourth in a set of four volumes dealing with the long term evolution of Latin syntax roughly from the 4th century BCE up to the 6th century CE As in the other volumes the non technical style and extensive illustration with classical examples makes the content readable and immediately useful to the widest audience

The Language of Literature Rutger Jakob Allan, Michel Buijs, 2007 A collection of papers revealing the boundary between linguistic and literary approaches to classical texts *Embodiment in Latin Semantics* William Michael Short, 2016-05-11 Embodiment in Latin Semantics introduces theories of embodied meaning developed in the cognitive sciences to the study of Latin semantics Bringing together contributions from an international group of scholars the volume demonstrates the pervasive role that embodied cognitive structures and processes play in conventional Latin expression across levels of lexical syntactic and textual meaning construction It shows not only the extent to which universal aspects of human embodiment are reflected in Latin s semantics but also the ways in which Latin speakers capitalize on embodied understanding to express imaginative and culture specific forms of meaning In this way the volume makes good on the potential of the embodiment hypothesis to enrich our understanding of meaning making in the Latin language from the level of word sense to that of literary thematics It should interest anyone concerned with how people including in historical societies create meaning through language
