Teoría De La Traducción Una Aproximación Al Discurso:

Teoría de la traducción Basil Hatim, Ian Mason, 1995 *La traducción de literatura árabe contemporánea* Gonzalo Fernández Parrilla, 2000 Esta obra propone una reflexión sobre el impacto que en la recepción de la literatura árabe contemporánea en Europa tuvo la concesión en 1988 del Premio Nobel de Literatura a un autor en lengua árabe Naguib Mahfuz El Nobel a Mahfuz activó el interés de las editoriales que buscaron el contacto con especialistas y traductores y provocó un aumento de las traducciones de literatura árabe contemporánea Pero se trataba simplemente de un fenómeno coyuntural ligado al premio o se había canalizado realmente el interés hacia una lengua y cultura tan próximas geográficamente como desconocidas en el viejo continente Podríamos hablar de una recepción europea de la literatura árabe contemporánea o quizás era más conveniente referirse a recepciones nacionales en cada uno de los países en función de contextos particulares Había sido valorada esta literatura en los medios periodísticos europeos por su calidad por contener unas señas de identidad incuestionables y por ofrecer una dimensión estética o creadora propias o seguía siendo acogida sólo como expresión de hábitos y conductas diferentes a favor o en contra de la liberación de la mujer o del extremismo religioso desde la óptica narrativa de Las mil y una noches o fuera de ella Transcurrida una década del Nobel 1988 por primera vez en la historia a un escritor en lengua árabe la Escuela de Traductores de Toledo consideró que era un buen momento para hacer un primer balance sobre la recepción de la literatura árabe contemporánea en Europa Estas páginas recogen las respuestas que traductores profesores narradores y editores de diferentes países de la cuenca mediterránea ofrecieron durante el coloquio que bajo el mismo título se celebró en la Escuela de Traductores de Toledo del 29 al 31 de octubre de 1998 gracias al apoyo de la Fundación Europea de la Cultura en el marco del Observatorio Permanente sobre la Traducción del árabe *Terminologie de la Traduction* Jean Delisle, Hannelore Lee-Jahnke, Monique C. Cormier, 1999-07-15 This terminology collection presents approximately 200 concepts that can be considered the basic vocabulary for the practical teaching of translation Four languages are included French English Spanish and German Nearly twenty translation teachers and terminologists from universities in eight countries Canada France Germany Spain Switzerland United Kingdom United States and Venezuela defined the concepts and presented them in pedagogical form with notes and examples The terms describe specific language acts the cognitive aspects involved in the translation process the procedures involved in transfer from one language to another and the results of these operations All of the terms in each section of the book are cross referenced A dozen tables help the reader understand the relationships between the concepts and a bibliography completes each section This vocabulary is designed to be a useful tool and contribution to the general quality of translator training *Aspects of Literary Translation* Eva Parra Membrives, Miguel Ángel García Peinado, 2012 Variedades del español: aproximaciones desde la sociolingüística, la pragmática, la traducción y la interpretación , 2024-01-15 El interés que han suscitado y suscitan las diferentes variedades del español peninsular e hispanoamericanas lo demuestra la abundante bibliografía en donde han sido descritas y catalogadas desde

principios del siglo XX hasta el momento actual Sin embargo hoy en día la sociolingüística y la pragmática deben sumarse a la dialectología para considerar nuevas perspectivas de estudio en torno a un hecho lingüístico as las variables como el sexo el nivel de estudios la edad as como las nociones de prestigio y prestigio encubierto deben ser elementos claves a la hora describir los distintos tipos de interacciones y actos lingüísticos Al mismo tiempo las variedades del español no sólo deben tratarse desde el ámbito lingüístico y literario sino que su alcance puede ser abordado desde otras disciplinas se propone pues en este volumen un novedoso y completo análisis del español y su diversidad que incluyen el prisma de la lingüística sociolingüística y pragmática las lenguas en contacto la traducción e interpretación y la didáctica de nuestra lengua como idioma extranjero El estudio es diverso y variado como el propio español pero muestra una relación constante entre las diferentes disciplinas presentadas The interest that the different varieties of Peninsular and Latin American Spanish have aroused and continue to arouse is demonstrated by the abundant bibliography in which they have been described and catalogued from the beginning of the 20th century to the present day However nowadays it is essential to associate dialectology with sociolinguistics and pragmatics in order to consider new perspectives of study around a linguistic fact variables such as sex level of education age and the notions of prestige and covert prestige must be key elements when describing the different types of interactions and linguistic acts At the same time the varieties of Spanish should not only be considered from the linguistic and literary sphere but their importance can be considered within other disciplines therefore this volume proposes a novel and complete analysis of Spanish and its diversity combining the prism of linguistics sociolinguistics and pragmatics languages in contact translation and interpretation and the didactics of Spanish as a foreign language The study is diverse and varied like the Spanish language itself but shows a constant relationship between the different disciplines presented

Fraseología, Diatopía y Traducción / Phraseology, Diatopic Variation and Translation Pedro Mogorrón

Huerta, Antonio Albaladejo-Martínez, 2018-11-15 In all languages humans frequently use linguistic combinations called phraseological units PUs in communicative acts These PUs are characterized by their institutionalized fixation and in many cases by their opacity Traditionally the work on phraseology has placed the emphasis on the total fixing of components and structures of verbal expressions Variation in PUs is currently an uncontested fact and has been extensively studied and analyzed In addition in the case of languages like Spanish English French spoken in many countries new creations or diatopic variants arise While these diatopic expressions have been collected or analyzed in their territory of influence no comprehensive collection showing all the expressions and contrastive analysis to observe the similarities and differences between these diatopic creations with all their idiosyncratic and cultural references have been made so far The content of this volume deals with numerous linguistic lexicographic and translational problems in the context of language variation in general as well as specifically related to diatopic variation The aim is to make progress in these challenging and highly interesting areas which still pose many comprehension and translation problems Odisea nº 18 Carmen García
