Mazurkiewicz, 1997 The purpose of this book is twofold The concise presentation in outline format enables the student initially to gain an overview of histology and later to review the discipline This is particularly important in today's biomedical curriculum because of the reduction in time devoted to basic sciences and the dispersal of specific disciplinary materials into evolving nontraditional curricula Second the inclusion of approximately 300 study questions and integration of their answers with the text enables the student to review histology in a timely and efficient manner in the context of licensing and other comprehensive examinations *The Chimera of Prague: Paperback edition* Rick Pryll, 2017-11-17 Pryll captures all the international sexual tension and possibility that was 1990s Prague Bonnie Ditlevsen editor Penduline Press Divorced expat Joseph takes a gap year in the late nineties womanizing Prague with a vengeance He obsesses over one elusive girl and tires of the parade of women he assimilates into his sad life Along the way he figures three things out First he is going to end up alone Second the object of his infatuation is changed by the infatuation rendering her incompatible with him and third the search is not about the girl It is about unearthing a way to love himself again His soulmate is out there In fact he may have already met her Chimera features a unique story within the story format as Joseph digs from finish to start through his first love in an attempt to understand his particular brand of dysfunction As much as the big story is about a love affair with a magical city the vignettes are an ode to Western New York State from which he hails and the woman who originally broke his heart
