**The Terms of Political Discourse.** William E. Connolly, 1993-09-12 William Connolly presents a lucid and concise defense of the thesis of essentially contested concepts that can well be read as a general introduction to political theory as well as for its challenge to the prevailing understanding of political discourse In Connolly s view the language of politics is not a neutral medium that conveys ideas independently formed but an institutionalized structure of meanings that channels political thought and action in certain directions In the new preface he pursues the implications of this perspective for a distinctive conception of ethics and democracy

society     Words and Distinctions for the Common Good Gabriel Abend, 2023-07-25 In this book Gabriel Abend argues that social scientists need to focus more on the words and distinctions that their empirical claims depend on. He suggests two central questions researchers need to consider: First, how should word w be used in the social science community? Which is to say, how should word w be defined? Should it be used at all, and if so, on what grounds? Second, should distinction d be accepted in the social science community? For example, when a social scientist proposes a distinction between childhood, adolescence, adulthood, and old age, should they be accepted, and on what grounds? Which distinctions and classifications are good for the social science community? Throughout the chapters, Abend carefully investigates these core issues and related questions, arguing along the way that there is not a definitive answer. Instead, the book invites the social science community to work together to collectively address these consequential concerns.

**Getting from Here to There? Power, Politics and Urban Sustainability in North America** Ernest J. Yanarella, Robert W. Lancaster, 2016-05-04 *Getting from Here to There* seeks to take the study of sustainable cities into a realm of analysis and critique that has not been seriously investigated in any explicit and systematic manner: the sphere of power and politics. Using detailed case studies of selected urban sustainability programs, some stillborn or short-lived, others celebrated, still others most promising, it focuses on the political agencies shaping them and the structural elements either impeding or facilitating efforts to build sustainable cities. To accomplish this task, the authors utilize three theories or models of urban power: growth coalition, urban regime, and neo-Gramscian hegemony, to explore the dynamics of power and politics to better understand these cases and to derive important lessons about getting from here to there. These models offer valuable lessons for ongoing or future sustainable city programs: community or business groups, key policy makers, grassroots organizations, mayors, and urban planners involved in or contemplating moving urban sustainability projects forward, as well as students of urban politics and environmental and sustainability researchers.

**The Romani Movement** Peter Vermeersch, 2007-12-01 The collapse of communism and the process of state building that ensued in the 1990s have highlighted the existence of significant minorities in many European states, particularly in Central Europe. In this context, the growing plight of Europe's biggest minority, the Roma Gypsies, has been particularly salient. Traditionally dispersed, possessing few resources, and devoid of a common kin state to protect their interests, the Roma have often suffered from widespread exclusion and institutionalized discrimination. Politically underrepresented and lacking popular support amongst the wider populations of their host countries, the Roma have consequently become one of Europe's greatest losers in the transition towards democracy. Against this background, the author examines the recent attempts of the Roma in Central Europe and their supporters to form a political movement and to influence domestic and international politics. On the basis of first-hand observation and interviews with activists and politicians in the Czech Republic, Hungary, and Slovakia, he analyzes connections between the evolving state policies towards the Roma and the recent history of Romani mobilization. In order to reach a better understanding of the movement's

dynamics at work the author explores a number of theories commonly applied to the study of social movements and collective action

**Birth and Birthgivers** Janet Chawla, 2006 This volume presents varied essays exploring women's voices, agencies and aesthetics in the traditional handling of childbearing. Ayurveda as it comprehends reproduction, sonar's birth songs, birth narratives, cord cutters, dais, knowledge and compensation systems as well as analyses of biomedical dominance and erasure of indigenous knowledge all provide a peek behind the purdah in this critical reclamation of tradition

Keiretsu Economy - New Economy? R. Kensy, 2001-04-02 This book combines a theoretical study of Japan's economic structures and multinational enterprises with a post-modern analysis of the contemporary multinational enterprise. The author considers the appropriateness of the post-modern approach for discussing economic activities in particular the New Economy and also Japanese society and culture. Kensy analyses Japan's economic structure interpreting its methods, strategies and results in a post-modern context and presents a survey of socio-economic development in Japan since the beginning of westernization. He goes on to discuss Japanese models for the transformation of society in the future with particular reference to the Keiretsu. Finding Japan to be a truly postmodern society, Kensy shows that Japan is prepared to be a leader in the New Economy. Kensy takes an innovative and stimulating approach that will be of interest to those seeking to better understand the development and future of the economic structures of Japan

Beyond Citizenship and the Nation-State Jocelyn M. Boryczka, Sarah M. Surak, 2023-06-05 *Beyond Citizenship and the Nation State* examines tensions between a push for clear boundaries defining nation states and who legitimately belongs in them and a pull away from citizenship as capturing what membership in a political community looks like in the twenty-first century. Borders signify and represent these physical and metaphorical challenges in a world where anti-migration and anti-refugee rhetoric are central to the production and reproduction of postcolonial and nationalist political discourse and identity formation. With an expansive view of citizenship, authors challenge dominant narratives, explore alternatives to neoliberal frameworks and link theory and practice through participatory opportunities for non-citizen political participation. In doing so, they present possibilities for reimagining citizenship for a just, more sustainable future. This

book will appeal to academics and practitioners working in the disciplines of Sociology Social Policy Human Geography Political Sciences Citizenship Studies and Migration Studies It was originally published as a special issue of New Political Science     *Reforms in Long-Term Care Policies in Europe* Costanzo Ranci,Emmanuele Pavolini,2012-11-08 Over the last two decades many changes have happened to the social welfare policies of various industrial countries Citizens have seen their pensions unemployment benefits and general healthcare policies shrink as belt tightening measures are enforced But in contrast long term care has seen a general growth in public financing an expansion of beneficiaries and more generally an attempt to define larger social responsibilities and related social rights The aim of this book is to describe and interpret the changes introduced in long term care policies in Western Europe The volume argues that recent reforms have brought about an increasing convergence in LTC policies Most of the new programs have developed a new general approach to long term care based on a better integration of social care and health care The book explores increasing public support given to family care work in the past the family would take care of the elderly or infirm and increasing growth and recognition of a extended social care market by which care has shifted from a moral obligation based on family reciprocity to a paid professional activity A new social care arrangement has therefore been developing in Western countries based on a new mix of family obligations market provision and public support In order to understand such changes this analysis will take into account the social and economical impact of these reforms     *Catalogue of the Books in the Library of the Honourable Society of Gray's Inn* Gray's Inn.
