conclude the volume Problems of Old Testament Theology in the Twentieth Century Henning Graf Reventlow,1985 As its title indicates this volume is an extended bibliographical essay concerning the major questions arising from attempts to present an Old Testament theology in the twentieth century R E Clements reviewing the original German edition in Society for Old Testament Studies Book List Problems of Old Testament Theology in the Twentieth Century ,1985 Reading the Old Testament with the Ancient Church (Evangelical Ressourcement) Ronald E. Heine,2007-09-01 The contemporary church dismisses Christianity's foundational Scriptures at its own peril However the teachings of the Old Testament are less and less at the center of congregational preaching and conversation The early church fathers visionaries such as Augustine Origen and Tertullian embraced the Hebrew Scriptures allowing the Old Testament to play a central role in the formation of their beliefs As today's Christians struggle to relate to concepts such as the Jewish law and the prophets pastors and laypersons benefit from looking through the lenses of these thoughtful pioneers This latest volume in the Evangelical Ressourcement series helps the Old Covenant to come alive **Old Testament Theology** Ronald Ernest Clements,2012-09-01 What is Old Testament Theology For the past two hundred years Old Testament scholars have developed a distinctive presentation of the theological significance of this literature on the basis of a penetrating historical criticism Increasingly however the form and structure of this discipline have moved away from other areas of theological investigation The result is that today Old Testament theology bears little relationship to the historic ways in which Christians and Jews have actually found theological meaning in the Bible **The Heartbeat of Old Testament Theology (Acadia Studies in Bible and Theology)** Mark J. Boda,2017-04-18 This volume explores the theological heartbeat of the Old Testament by examining three big ideas that communicate the Old Testament's redemptive theology Highly respected scholar Mark Boda shows how three creedal expressions the narrative character and relational creeds recur throughout the Old Testament and express its core redemptive theology in turn revealing how the redemptive pulse of God expands to all of creation He also traces these redemptive and creational pulses into the New Testament and shows their relevance for today's Christian community Old Testament Theology R. W. L. Moberly,2013-11-19 A top Old Testament theologian known for his accessible and provocative writing probes what is necessary to understand and appropriate the Hebrew Bible as a fundamental resource for Christian theology and life today This volume offers a creative example of theological interpretation modeling a way of doing Old Testament theology that takes seriously both the nature of the biblical text as ancient text and also the questions and difficulties that arise as believers read this text in a contemporary context Walter Moberly offers an in depth study of key Old Testament passages highlighting enduring existential issues in the Hebrew Bible and discussing Jewish readings alongside Christian readings The volume is representative of the content of Israel's Scripture rather than comprehensive yet it discusses most of the major topics of Old Testament theology Moberly demonstrates a Christian approach to reading and appropriating the Old Testament that holds together the priorities of both scholarship and faith
