Re-Writing Jesus: Christ in 20th-Century Fiction and

Film Graham Holderness, 2014-11-20 At the heart of Christian theology lies a paradox unintelligible to other religions and to secular humanism that in the person of Jesus God became man and suffered on the cross to effect humanity's salvation. In his dual nature as mortal and divinity and unlike the impassable God of other monotheisms Christ thus became accessible to artistic representation. Hence the figure of Jesus has haunted and compelled the imagination of artists and writers for 2 000 years. This was never more so than in the 20th Century in a supposedly secular age when the Jesus of popular fiction and film became perhaps more familiar than the Christ of the New Testament. In *Re Writing Jesus Christ in 20th Century Fiction and Film* Graham Holderness explores how writers and film makers have sought to recreate Christ in work as diverse as Anthony Burgess's *Man of Nazareth* and Jim Crace's *Quarantine* to Martin Scorsese's *The Last Temptation of Christ* and Mel Gibson's *Passion of the Christ*. These works are set within a longer and broader history of Jesus novels and Jesus films, a lineage traced back to Ernest Renan and George Moore and explored both for their reflections of contemporary Christological debates and their positive contributions to Christian theology. In its final chapter the book draws on the insights of this tradition of Christological representation to creatively construct a new life of Christ, an original work of theological fiction that both subsumes the history of the form and offers a startlingly new perspective on the biography of Christ. *The Armenian*

Genocide in Perspective Richard G. Hovannisian, 2009-05-31 World War I was a watershed, a defining moment in Armenian history. Its effects were unprecedented in that it resulted in what no other war, invasion or occupation had achieved in three thousand years of identifiable Armenian existence. This calamity was the physical elimination of the Armenian people and most of the evidence of their ever having lived on the great Armenian Plateau to which the perpetrator side soon gave the new name of Eastern Anatolia. The bearers of an impressive martial and cultural history, the Armenians had also known repeated trials and tribulations, waves of massacre, captivity and exile, but even in the darkest of times there had always been enough remaining to revive, rebuild and go forward. This third volume in a series edited by Richard Hovannisian, the dean of Armenian historians, provides a unique fusion of the history, philosophy, literature, art, music and educational aspects of the Armenian experience. It further provides a rich storehouse of information on comparative dimensions of the Armenian genocide in relation to the Assyrian, Greek and Jewish situations and beyond that, paradoxes in American and French policy responses to the Armenian genocides. The volume concludes with a trio of essays concerning fundamental questions of historiography and politics that either make possible or can inhibit reconciliation of ancient truths and righting ancient wrongs.

Juan Goytisolo Alison Ribeiro de Menezes, 2005 This book assesses Goytisolo's contribution to cultural debates in Spain since the sixties and revises the prevailing critical interpretation of his fiction, arguing that his works represent an ethical engagement with postmodernist theory rather than an illustration of it. This monograph offers two new perspectives on Spanish writer Juan Goytisolo. First, under the themes of authorship and dissidence, it integrates his writing across several genres, providing a rounded assessment of his contribution to cultural debates in Spain since the sixties and arguing that

resistance to repressive discourses characterizes his essays and autobiographies as much as his fiction. Second, it revises the prevailing critical interpretation of Goytisolo's fiction by building on four premises: that his novels are less clearly oppositional than prevailing interpretations imply; that in order to engage with discourses of identity he employs an idiom which, contrary to his own statements, is not a poststructuralist autonomous world of words; that a textual practice grounded in the recognizable experience of post-Civil War Spain rather than one which seeks out the realm of pure textuality is essential to Goytisolo's subversive political intentions; and that the autobiographical element of much of his work constitutes a more complex narrative aesthetic than has been appreciated. The book argues that if Goytisolo's work is interpreted as an ethical engagement with postmodernist theory rather than as an illustration of it, then certain contradictions for which he has been criticized are seen in a new and valuable light.
