The Four Sacred Seasons:

The Four Sacred Seasons Gottfried Purucker, 1979 The solstices and equinoxes have been held sacred in many cultures This book explains the cosmic and human symbolism associated with the earth's annual cycling round the sun and the great initiatory events which take place at these seasons Key teachings on buddhas and avatars death and initiation and the two paths of growth for oneself and for others illumine not only the traditions of mankind but also the road which the aspirant daily seeks to tread

In the Temple G. De Purucker, 1994 The cycle of the years among the ancient peoples was always considered to be a symbol of life of man or indeed of the life of the universe Birth at the Winter Solstice Adolescence at the Spring Equinox full blown strength and power at the Summer Solstice and the closing with the Autumnal Equinox the period of the Great Passing This cycle of the years symbolises the training in the spiritual life G de Purucker In the Wisdom Traditions the solstices and equinoxes the four seasonal points are sacred times that link us to the Universal Life All cultures in ancient times venerated these seasonal transformations Drawing from Egyptian Buddhist Taoist and Druid teachings de Purucker gives commentary on the inner meaning elaborating the esoteric depth of these sacred teachings

In the Temple Gottfried Purucker, W. Emmett Small, 2013 **Sacred Journey of the Medicine Wheel** Myron Old Bear, 2008-10

The nineteen Teaching Sessions presented in this book also explain the specific steps involved in conducting many ancient ceremonies that collectively can create a personal lifestyle that produces peace harmony and balance within the Sacred Circle of Life The words to the songs associated with those ceremonies are printed in the Appendix *The Flaming Circle* Robin Artisson, 2008-06 A Regeneration of the Pre Christian Spiritual Worldviews and Religious Practices of the Holy Isles This book is very different from anything Robin Artisson has written so far for a very special reason it is written in the tone of a father to his children This book is a gift for his children full of things he would want them to know and things he would want to tell them to help them through their lives The book is closer more intimate and warmer than most of his work But it includes massive amounts of material regarding native British Isles Britain and Ireland traditional Paganism and spiritual ecology and native Gods and Goddesses Tons of scholarly backing and personal inspiration as well as a wide and complete selection of traditional Pagan philosophical points of guidance are offered as a father would want to offer his most beloved offspring A full working reconstruction of the pre Christian polytheistic religious perspectives and practices of Pagan Britain and Ireland is taught in its pages like a guidebook and a long letter narrative being sent from father to children There is a long occult tradition of such exchanges All are invited to listen in on a man telling the most important things he can tell his children and hoping that they remember these things when he is gone and they have children of their own A very personal project but one he has wanted to create and write for years and it deals with years worth of material he has collected
