Foreign Affairs,1971 *The Bowl with One Spoon: The American empire and the fourth world* Tony Hall,2003 How should citizens of the world respond to the emergence of the United States as the planet s sole superpower and the military commercial and cultural centre of a new kind of global empire This question poses the central dilemma of our time How can we elaborate a global rule of law based on principles of equality and democracy when the world s most powerful polity seemingly acknowledges no higher authority in the international arena than its own domestic priorities For Anthony Hall the answer lies in the concept of the Fourth World an inclusive intellectual tent covering a wide range of movements whose leaders have sought to implement alternative visions of globalization to those that have prevailed since the Columbian conquests began in 1492 Its basic principles include recognition of the inherent rights of all peoples to self determination and an enlightened embrace of the ecology of biocultural diversity role of the United States began at its founding The Royal Proclamation of 1763 which offered a qualified recognition of Aboriginal and treaty rights infuriated many Anglo American colonists Their resulting sense of grievance was articulated in the Declaration of Independence which proclaims the inalienable rights of all men even as it accuses King George III of having endeavoured to bring on the inhabitants of our frontiers the merciless Indian savages The United States has never faced let alone resolved this fundamental contradiction in its founding document This failure manifested itself in the lawlessness and militarism that characterized US treatment of Indigenous peoples in the most formative phase of the country s frontier expansionism The exclusion of savages from the republic s founding ideals of human equality came increasingly to permeate US foreign policy culminating in the ethnic and religious prejudices colouring the so called War on Terrorism policies toward Aboriginals that have done much to shape the interconnected histories of the United States Canada Latin America South Africa Australia New Zealand and many other countries **Stage of Emergency** Gonda Aline Hector Van Steen,2015 This volume offers a critique of cultural and intellectual life in Greece during the dictatorship of 1967 1974 discussing how Greek playwrights directors and actors reconceived the role of culture in a state of crisis and engaged with questions of theater s relationship to politics and community In the early 1970s several bold new plays appeared resonating with the concerns of Greek public and private life The reinvigorated Greek stage displayed an extraordinary degree of historical consciousness and embraced revisionist

cultural critique as well leading to a drastic re shaping of the Greek theatrical landscape Stage of Emergency is the first study to focus on these particular theatrical developments of the so called junta era shedding light not only on the messages and impact of the plays themselves but also on the politics of culture and censorship affecting the Greek public during this period
