**Age of Recording** Robert Philip,2004-04-10 Listeners have enjoyed classical music recordings for more than a century yet important issues about recorded performances have been little explored What is the relationship between performance and recording How are modern audiences affected by the trends set in motion by the recording era What is the impact of recordings on the lives of musicians In this wide ranging book Robert Philip extends the scope of his earlier pioneering book *Early Recordings and Musical Style Changing Tastes in Instrumental Performance 1900 1950* Philip here considers the interaction between music making and recording throughout the entire twentieth century The author compares the lives of musicians and audiences in the years before recordings with those of today He examines such diverse and sometimes contentious topics as changing attitudes toward freedom of expression the authority of recordings made by or approved by composers the globalization of performing styles and the rise of the period instrument movement Philip concludes with a thought provoking discussion of the future of classical music performance *The Musical Quarterly* Oscar George

Sonneck,1923 **Gaston Crunelle and Flute Playing in Twentieth-Century France** Leonard Garrison,2024-09-09 Gaston Crunelle 1898 1990 was Professor of Flute at the Paris Conservatory from 1941 to 1969 and taught an entire generation of the world s leading flutists A leading orchestral chamber music and solo flutist his recordings are among the best of the 78 rpm and early LP eras **Gaston Crunelle and Flute Playing in Twentieth Century France** establishes Crunelle s place in history as one of the most important flutists of the twentieth century and shines light on musical life in France during his lifetime from the silent film era through the German Occupation to the changes in music and education since 1968 **Neglected Chamber Works for the Flute and the Correlating Historical Background** Jennifer Christine Kennard,2006

*Frederick the Great and his Musicians: The Viola da Gamba Music of the Berlin School* Michael O'Loughlin,2017-07-05 After decades of stagnation during the reign of his father the Barracks King the performing arts began to flourish in Berlin under Frederick the Great Even before his coronation in 1740 the crown prince commenced recruitment of a group of musician composers who were to form the basis of a brilliant court ensemble Several composers including C P E Bach and the Graun brothers wrote music for the viola da gamba an instrument which was already becoming obsolete elsewhere They were encouraged in this endeavour by the presence in the orchestra from 1741 of Ludwig Christian Hesse one of the last gamba virtuosos who was described in 1766 as unquestionably the finest gambist in Europe This study shows how the unique situation in Berlin produced the last major corpus of music written for the viola da gamba and how the more virtuosic works

were probably the result of close collaboration between Hesse and the Berlin School composers The reader is also introduced to the more approachable pieces which were written and arranged for amateur viol players including the king's nephew and ultimate successor Frederick William II O Loughlin argues that the aesthetic circumstances which prevailed in Berlin brought forth a specific style that is reflected not only in the music for viola da gamba Characteristics of this Berlin style are identified with reference to a broad selection of original written sources many of which are hardly accessible to English speaking readers There is also a discussion of the rather contradictory reception history of the Berlin School and some of its composers The book concludes with a complete thematic catalogue of the Berlin gamba music with a listing of original manuscript sources and modern publications The book will appeal to professional and amateur viola da gamba players as well as to scholars of eighteenth century German music

**The Piano in Chamber Ensemble, Third Edition** Maurice Hinson, Wesley Roberts, 2021-07-27 In this expanded and updated edition The Piano in Chamber Ensemble An Annotated Guide features over 3200 compositions from duos to octets by more than 1600 composers Maurice Hinson and Wesley Roberts catalog published works for piano with two or more instruments with information on performance level length individual movements overall style and publisher Divided into sections according to the number and types of instruments involved The Piano in Chamber Ensemble then subdivides entries according to the actual scoring Keyboard string woodwind brass and percussion players and teachers will find a wealth of chamber works from all periods in this invaluable guide

**From Renaissance to Baroque** Jonathan Wainwright, Peter Holman, 2017-07-05 Historians of instruments and instrumental music have long recognised that there was a period of profound change in the seventeenth century when the consorts or families of instruments developed during the Renaissance were replaced by the new models of the Baroque period Yet the process is still poorly understood in part because each instrument has traditionally been considered in isolation and changes in design have rarely been related to changes in the way instruments were used or what they played The essays in this book are by distinguished international authors that include specialists in particular instruments together with those interested in such topics as the early history of the orchestra iconography pitch and continuo practice The book will appeal to instrument makers and academics who have an interest in achieving a better understanding of the process of change in the seventeenth century but the book also raises questions that any historically aware performer ought to be asking about the performance of Baroque music What sorts of instruments should be used At what pitch In which temperament In what numbers and or combinations For this reason the book will be invaluable to performers academics instrument makers and anyone interested in the fascinating period of change from the Renaissance to the Baroque
