**Legacy of Cornelius Cardew** Tony Harris, 2016-03-03 Cornelius Cardew is an enigma Depending on which sources one consults he is either an influential and iconic figure of British musical culture or a marginal curiosity a footnote to a misguided musical phenomenon He is both praised for his uncompromising commitment to world changing politics and mocked for being blindly caught up in a maelstrom of naive political folly His works are both widely lauded as landmark achievements of the British avant garde and ridiculed as an archaic and irrelevant footnote to the established musical culture Even the events of his death are shrouded in mystery and lack a sense of closure As long ago as 1967 Morton Feldman cited Cardew as an influential figure central to the future of modern music making The extent to which Cardew has been a central figure and a force for new ideas in music forms the backbone to this book Harris demonstrates that Cardew was an original thinker a charismatic leader an able facilitator and a committed activist He argues that Cardew exerted considerable influence on numerous individuals and groups but also demonstrates how the composer's significance has been variously underestimated undermined and misrepresented Cardew's diverse body of work and activity is here given coherence by its sharing in the values and principles that underpinned the composer's world view The apparently disparate and contradictory episodes of Cardew's career are shown to be fused by a cohesive Cardew aesthetic that permeates the man his politics and his music **Modern Discourse and Literary Insight** Pasquale De Marco, 2025-07-07 Modern Discourse and Literary

*Towards a Twenty-First-Century Feminist Politics of Music* Sally Macarthur, 2016-02-24 *Towards a Twenty First Century Feminist Politics of Music* opens up a new way of thinking about the absence of women's music It does not aim to find a solution in a liberal feminist sense but to discover new potentialities new possibilities for thought and action Sally Macarthur encourages us with the assistance of Deleuze and feminist Deleuzian work to begin the important work of imagining what else might be possible not in order to provide answers but to open up the as yet unknown The power of thought or what Deleuze calls the virtual opens up new possibilities Macarthur suggests that the future for women's new music is not tied to the predictable and known but to futures beyond the already known Previous research concludes that women's music is virtually absent from the concert hall and yet fails to find a way of changing this situation Macarthur finds that the flaw in the recommendations flowing from past research is that it envisages the future from the standpoint of the present and it relies on a set of pre determined goals It thus replicates the present reality so reinforcing rather than changing the status quo Macarthur challenges this thinking and argues that this repetitive way of thinking is stuck in the present unable to move forward Macarthur situates her argument in the context of current dominant neoliberal thought and practice She argues that women have generally not thrived in the neoliberal model of the composer which envisages the composer as an individual autonomous creator and entrepreneur Successful female composers must work with this dominant modernist aesthetic and exploit the image of the neo romantic entrepreneurial creator This book sets out in contrast to develop a new conception of subjectivity that sows the seeds of a twenty first century feminist politics of music
