The GAA Marcus De Búrca,1999 **The GAA v Douglas Hyde** Cormac Moore,2012-09-07 On 13 November 1938 just months after his inauguration President Douglas Hyde attended a soccer match between Ireland and Poland In a passionate reaction the GAA declared that by attending a foreign game he had broken Rule 27 the Ban and they removed him as patron One of the most controversial incidents in recent GAA history it strained relations between the GAA and aon de Valera's Fianna Fáil government It also damaged the standing of the Ban and was used extensively by opponents to argue for its removal **The Political Economy of the Irish Welfare State** Fred Powell,2017-09-13 This book analyzes the changing shape of Irish society over the hundred years since the 1916 rising arguing that there are distinctive master patterns that characterize its development of a welfare state that triangulates among church state and capital Fred Powell charts the influence of social movements that resisted oppressive power structures including the labor and feminist movements organizations working for the rights of tenants and the homeless survivors of institutional abuse groups of asylum seekers and refugees and activists for gay rights and minority and ethnic cultural rights The tension between these groups and the more conservative institutions that have dominated Ireland raises major questions about whether an inclusive welfare state is possible in a quasi religious society **The Voice of the Provinces** Christopher Doughan,2019 Ireland's regional and provincial newspapers have played a largely unrecognised role in Irish history this book charts their experiences in the dramatic and sometimes violent years leading up to independence They were not immune from the conflict they risked censorship suppression prolonged closure and sometimes violent attack This book tells their story for the first time **Who Owns Football?** David Hassan,Sean Hamil,2013-09-13 The commercialization of sport since the 1990s has had a number of consequences The market forces that have defined commercialization notably pay per view television whilst initially welcomed as important new sources of revenue have also had the unanticipated consequences of destabilizing many sporting competitions and institutions undermining the financial future of clubs in their traditional role as key social and cultural institutions This has been manifested in the paradox of chronic financial loss making amongst professional sports clubs in an era of exponential revenue growth a trend exemplified by the experience of Italy's Serie A and the English Premier League both cases examined in detail in this book But at the same time some traditional sporting organizations have sought with some success to chart a middle way retaining traditional sporting movement objectives whilst also embracing a form of commercialism The Gaelic Athletic Association in Ireland the supporter owned FC Barcelona football club and New Zealand rugby union offer illustrative examples of such strategies examined in detail This book explores the background to this clash of commercial and traditional sporting objectives and debates the consequences for wider sports governance This book was published as a special issue of Soccer and Society *The Good Enough Life* Daniel Miller,2023-11-08 This book is a highly original exploration of what life could and should be It juxtaposes a philosophical enquiry into the nature of the good

life with an ethnography of people living in a small Irish town Attending carefully to the everyday lives of these people the ethnographic chapters examine topics ranging from freedom and inequality to the creation of community and the purpose of life These chapters alternate with discussions of similar topics by a wide range of philosophers in the Western tradition from Socrates and the Stoics through Kant Hegel and Heidegger to Adorno Rawls MacIntyre and Nussbaum As an ethnography this book reveals just how much we can learn from a respectful acknowledgement of what ordinary modest people have achieved By creating community as a deliberate and social project that provides the foundation for a more fulfilling life where affluence has not led to an increase in individualism the people in this town have found a way to live the good enough life The book also shows how anthropology and philosophy can complement and enrich one another in an enquiry into what we might accomplish in our lives

Amphibian conservation action plan : proceedings IUCN/SSC Amphibian Conservation Summit 2005 ,2007 Depreciation Course (2006) CCH Tax Law,2005-12 **Business Taxpayer Information Publications**

,2001 *The Human Rights City* Michele Grigolo,2019-04-11 We are used to thinking of human rights as a matter for state governments to deal with Much less investigated is the question of what cities do with them even though urban communities and municipalities have been discussing human rights for quite some time In this volume Grigolo borrows the concept of the human rights city to invite us to think about a new urban utopia a place where human rights strive to guide urban life By turning the question of the meaning and use of human rights in cities into the object of critical investigation this book tracks the genesis institutionalisation and implementation of human rights in cities focussing on New York San Francisco and Barcelona Touching also upon matters such as women s rights LGBT rights and migrant rights The Human Rights City emphasises how human rights can serve urban justice but also a neoliberal practice of the city This book is a useful resource for scholars and students interested in fields such as Sociology of Human Rights Sociology of Law International Law Urban Sociology Political Sociology and Social Policies
