

This is an anthology with a plot. It is the story of a man pursued by his own unrelenting idea through a protean succession of differing occupations.

Galbraith

R E A D E R

From scientific treatise to novel of diplomatic skulduggery these selections display Galbraith's writings in every phase, his economic reasoning at every stage—yet such things are not the center of interest. It is the chase, the search, that is the core of this book. It should stand apart as a comment on the uses of economic theory and the sources and resources of the creative mind.
