

The GIs The Americans In Britain 1942 1945

Anne Sharp Wells

The GIs The Americans In Britain 1942 1945:

The G.I.'s Norman Longmate, 1975 The forgotten French Nicholas Atkin, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license It is widely assumed that the French in the British Isles during the Second World War were fully fledged supporters of General de Gaulle and that across the channel at least the French were a nation of resisters This study reveals that most exiles were on British soil by chance rather than by design and that many were not sure whether to stay Overlooked by historians who have concentrated on the Free French of de Gaulle these were the Forgotten French refugees swept off the beaches of Dunkirk servicemen held in camps after the Franco German armistice Vichy consular officials left to cater for their compatriots and a sizeable colonist community based mainly in London Drawing on little known archival sources this study examines the hopes and fears of those communities who were bitterly divided among themselves some being attracted to P tain as much as to de Gaulle *The American Occupation of Australia, 1941-45* John McKerrrow, 2013-07-26 Over 120 000 American troops were stationed in Australia during the Second World War Hundreds of thousands more passed through the country between 1941 and 1945 Because of Japan s conquest of the Philippines in 1942 Australia was transformed into the principle base for the United States Army in the Southwest Pacific This American occupation of an allied country resulted in several areas of tension between friends The examination of these fault lines which have for the most part received little attention from historians is the purpose of this book Jurisdictional and policing disputes and problems between Australian workers and American authorities are examined American personnel committed thousands of crimes during the occupation many of which were notorious How Australians reacted to these crimes and how the American military sought to limit their negative effect on wartime relations is a major focus of this book How the US military tried to protect GIs from prosecution by spiriting them out of Australia is also explored Other areas of tension such as race and gender relations which have been looked at by other historians are examined in a new light this book provides novel insights and challenges the existing historiography with regard to relations between black Americans and Australian civilians How leaders on both sides in particular Douglas MacArthur and John Curtin managed crises and relations between civilians and GIs are studied Sexual relations an area of particular concern for authorities were directed towards short term flings and prostitution In contrast authorities did all they could to discourage long term relations i e marriage Authorities obsessed over interracial sexual relations and doubled efforts to discourage them Conflicts between American personnel and Australian civilians during the occupation did not threaten the alliance against Japan Nevertheless there were myriad problems between allies that led to friction and ill will These problems demanded management from above Rich Relations David Reynolds, 1995 The fascinating social and political history of a time when a million and a half American servicemen crowded onto a small island training and waiting for a conflict which would eventually cost many of them their lives A superb job of telling one of the most fascinating stories of World War II Stephen E

Ambrose 16 pages of photos maps charts and political cartoons Index **Historical Dictionary of World War II** Anne Sharp Wells, 2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis members was fought primarily in Europe the Mediterranean the Middle East East and North Africa and the Atlantic Ocean The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain the United States and the Union of Soviet Socialist Republics The Historical Dictionary of World War II The War against Germany and Italy relates the history of this war through a chronology an introductory essay maps and photos and an extensive bibliography The dictionary section has more than 300 cross referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II **Murder Capital** Amy Bell, 2016-05-16 Murder Capital is a historical study of unexpected deaths whose circumstances required official investigation in mid twentieth century London Suspicious deaths murders in the family and by strangers infanticides and deaths from illegal abortions reveal moments of personal and communal crisis in the social fabric of the city The intimate details of these crimes revealed in police investigation files newspaper reports and crime scene photographs hint at the fears and desires of people in London before during and after the profound changes brought by the dislocations of the Second World War By setting the institutional ordering of the city against the hidden intimate spaces where crimes occurred and were discovered the book presents a new popular history of the city in which urban space circumscribed the investigation classification and public perceptions of crime

The Military-State-Society Symbiosis Peter Karsten, 2013-12-16 These five volumes concern one of the most important institutions in human history the military and the interactions of that institution with the greater society Military systems serve nations they may also reflect them Soldiers are enlisted they may also be said to self select Military units have missions they also have interests In an older more traditional military history while the second reflects a newer approach Although each statement in the pairs may be said to be true the former speak from the framework of the military sciences the latter from the framework of the social and behavioral sciences The military systems of our past differ from one another over time in political origins size missions and technological and tactical fashions but to a great extent their historical experiences have been more noticeably similar than they were different When we ask questions about the recruiting training or motivating of military systems or of those systems interactions with civilian governments and with the greater society as do the essays in these five volumes of reading on The Military and Society we are struck by the almost timeless patterns of continuity and similarity of experience In each of these volumes approximately half of the essays selected deal with the experience in the

United States the other half with the experiences of other states and times enabling the reader to engage in comparative analysis

American Soldiers Overseas Anni Baker, 2004-09-30 Over the past 60 years the U S armed forces have created a web of military bases all over the world from Australia to Iceland to Saudi Arabia This is the aspect of military service that the majority of soldiers know and remember Interaction between U S personnel and local populations is almost a given and it is inevitable that the American and host communities will influence each other in numerous ways This book looks at the history and impact of American military communities overseas It discusses how U S bases affected economic and political life in the host communities how host societies shape the profile and activities of military communities and what happens when relations break down Through case studies of communities around the world Baker shows that the U S armed forces have had a surprisingly large impact both positive and negative on the affairs of many but not all host societies including economic revitalization cultural change and sometimes tragic social consequences In not a few cases the U S military presence has become politically controversial on a national level On the other hand many host nations have successfully circumscribed the activities of military communities rendering their potentially disruptive presence almost invisible

Black Market Britain Mark Roodhouse, 2013-03-21 The first study of the underground economy in austerity Britain Drawing on a wide range of sources including recently declassified material it reveals the nature and extent of black marketeering in rationed and price controlled goods during the 1940s and early 1950s

In Defence of War Nigel Biggar, 2013-09-12 Against the domination of moral deliberation by rights talk In Defence of War asserts that belligerency can be morally justified even while it is tragic and morally flawed Recovering the early Christian tradition of just war thinking Nigel Biggar argues in favour of aggressive war in punishment of grave injustice
