The Heart of War, 2002 The Heart of War Gwyn Prins, 2003-08-29 Written by one of the most highly regarded experts on global security this is a controversial look at the changing face of war and the role of the military in the twenty first century Multipolarity in the 21st Century Donette Murray, David Brown, 2012-01-30 This book seeks to help shape the debate surrounding power and polarity in the twenty first century both by assessing the likelihood of US decline and by analysing what each of the so called rising powers can do As the twenty first century moves out of its first decade American supremacy continues to generate intense debate about the nature quality and sustainability of US power At the same time significant developments in four rising powers China Russia India and the European Union have provoked analysts to ask whether multipolarity is a realistic prospect Multipolarity in the 21st Century assesses the likelihood of a multipolar world developing either by a marked US decline and or by the ability of these putative rivals to continue to rise to the level necessary to be credibly considered a superpower Written by a combination of emerging scholars and recognised experts this volume will provide a timely and authoritative analysis of one of the most controversial and compelling security debates of the twenty first century This book will be of much interest to students of Security Studies Foreign Policy and International Relations in general The Royal Navy and Maritime Power in the Twentieth Century Ian Speller, 2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s Each case study demonstrates critical features of maritime power including operations during the transition to war fleet operations in narrow seas logistics submarine operations the impact of air power on maritime operations blockade maritime power projection amphibious warfare jurisdictional disputes and the law of the sea and peace support operations The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power As such it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians military professionals and the general reader **Old Europe, New Europe and the Transatlantic Security Agenda** Kerry Longhurst, Marcin Zaborowski, 2013-09-13 The post September 11th security policies of Poland the UK France the US and Germany presented in this new book illustrate how and why the Atlantic community ruptured over Iraq a result in part it is argued of the existence of particular national strategic cultures Whilst the longer term

Woods, 2010 Analyzes the massive turmoil afflicting the nation of Sierra Leone 1995 2002 and the efforts of outside forces to bring stability to that small country The taxonomy of intervention ranged from private mercenary armies through the Economic Community of West African States to the U N and the U K In every case those who intervened encountered a common set of difficulties that had to be overcome Unsurprisingly they also discovered challenges unique to their own org and political circumstances Serving soldiers can often profit vicariously from the mistakes of others as recounted in detailed case studies of historical events A cautionary tale that political leaders and military planners contemplating intervention in Africa ignore at their peril **Providing for National Security** Andrew M. Dorman, Joyce P. Kaufman, 2014-04-30 *Providing for National Security* A Comparative Analysis argues that the provision of national security has changed in the 21st century as a result of a variety of different pressures and threats In this timely volume experts from both the academic and policy worlds present 13 different country case studies

drawn from across the globe including established and newer states large and smaller states those on the rise and those in apparent decline to identify what these key players consider to be their national security priorities how they go about providing national security how they manage national security and what role they see for their armed forces now and in the future The book concludes that relative standing and the balance of power remains important to each state and that all see an important role for armed forces in the future

Forces for Good Graeme Cheeseman, 2004 Forces for good develops and explores the concept of cosmopolitan militaries It examines how governments militaries and institutions have responded politically doctrinally and operationally to claims that militaries have a new role in cosmopolitan law enforcement that allows and perhaps even requires the use of force to protect and defend those who are the victims of gross abuse of human rights The contributors include academics defence practitioners and serving military officers
