**The Secret Trachings of All Ages** Manly Palmer Hall,2020-09-28 NUMEROUS volumes have been written as commentaries upon the secret systems of philosophy existing in the ancient world but the ageless truths of life like many of the earth s greatest thinkers have usually been clothed in shabby garments The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages To bring about this coalescence of Beauty and Truth has proved most costly but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure Work upon the text of this volume was begun the first day of January 1926 and has continued almost uninterruptedly for over two years The greater part of the research work however was carried on prior to the writing of the manuscript The collection of reference material was begun in 1921 and three years later

the plans for the book took definite form For the sake of clarity all footnotes were eliminated the various quotations and references to other authors being embodied in the text in their logical order The bibliography is appended primarily to assist those interested in selecting for future study the most authoritative and important items dealing with philosophy and symbolism To make readily accessible the abstruse information contained in the book an elaborate topical cross index is included I make no claim for either the infallibility or the originality of any statement herein contained I have studied the fragmentary writings of the ancients sufficiently to realize that dogmatic utterances concerning their tenets are worse than foolhardy Traditionalism is the curse of modern philosophy particularly that of the European schools While many of the statements contained in this treatise may appear at first wildly fantastic I have sincerely endeavored to refrain from haphazard metaphysical speculation presenting the material as far as possible in the spirit rather than the letter of the original authors By assuming responsibility only for the mistakes which may appear herein I hope to escape the accusation of plagiarism which has been directed against nearly every writer on the subject of mystical philosophy Having no particularism of my own to promulgate I have not attempted to twist the original writings to substantiate preconceived notions nor have I distorted doctrines in any effort to reconcile the irreconcilable differences present in the various systems of religious philosophic thought The entire theory of the book is diametrically opposed to the modern method of thinking for it is concerned with subjects openly ridiculed by the sophists of the twentieth century Its true purpose is to introduce the mind of the reader to a hypothesis of living wholly beyond the pale of materialistic theology philosophy or science The mass of abstruse material between its covers is not susceptible to perfect organization but so far as possible related topics have been grouped together     Secret Teachings of All Ages Manly Palmer Hall, 2005-02-09 Manly Palmer Hall wrote this book at age twenty one and self published it later in his mid twenties The book is pure conceptual truth without bogging ourselves down with the details Great read for anyone who likes Joseph Campbell and wishes to follow up on the Power of Myth and get into the right hand occult     *The Secret Police and the Religious Underground in Communist and Post-Communist Eastern Europe* James A. Kapaló, Kinga Povedák, 2021-08-12 This book addresses the complex intersection of secret police operations and the formation of the religious underground in communist era Eastern Europe It discusses how religious groups were perceived as dangerous to the totalitarian state whilst also being extremely vulnerable and yet at the same time very resourceful It explores how this particular dynamic created the concept of the religious underground and produced an extremely rich secret police archival record In a series of studies from across the region the book explores the historical and legal context of secret police entanglement with religious groups presents case studies on particular anti religious operations and groups offers methodological approaches to the secret police materials for the study of religions and engages in contemporary ethical and political debates on the legacy and meaning of the archives in post communism     Collected works. *The Elijah Enigma* Hillel I. Millgram,2014-09-17 An analysis of the intertwining tales of Elijah and Ahab mercurial prophet and Machiavellian king this book is an accessible treatment of one of the most dramatic and well known episodes in the Bible In contrast to the popular image of Elijah as a courageous wonder worker who calls down fire from heaven and ascends to heaven in a fiery chariot this book contends that the prophet was a deeply conflicted man torn between a burning idealism and a deep disillusionment over his failure to achieve his ideals Despite his profound sense of failure Elijah s struggle against the paganizing regime of King Ahab and his queen Jezebel managed to save monotheism from eclipse and in so doing alter the course of human history This work further proposes that the tale presented by the Bible is more than an account of an ancient battle between two historic figures it is a paradigm of the struggle between the ideals of human dignity and justice and the alternative of expediency in the pursuit of power a conflict that pervades human life to this very day
