

A serene sunset scene on a beach. The sun is low on the horizon, casting a warm, golden glow over the sky and the water. The sky is filled with soft, wispy clouds. In the background, there are large, dark rock formations. The foreground is a wide expanse of golden sand. A series of footprints are visible in the sand, leading from the water towards the rocks. The footprints are arranged in a way that suggests a path, with some footprints appearing to be closer together than others.

One night I dreamed a dream,
As I was walking along the beach with my Lord.
Across the dark sky flashed scenes from my life.
For each scene, I noticed two sets of footprints in the sand,
One belonging to me and one to my Lord.

After the last scene of my life flashed before me,
I looked back at the footprints in the sand.
I noticed that at many times along the path of my life,
especially at the very lowest and saddest times,
there was only one set of footprints.

This really troubled me, so I asked the Lord about it.
"Lord, you said once I decided to follow you,
You'd walk with me all the way.
But I noticed that during the saddest and most troublesome times of my
life,
there was only one set of footprints.
I don't understand why, when I needed You the most, You would leave
me."

He whispered, "My precious child, I love you and will never leave you.
Never, ever, during your trials and testings.
When you saw only one set of footprints,
It was then that I carried you."

God: An Anatomy Francesca Stavrakopoulou, 2022-01-25 An astonishing and revelatory history that re-presents God as he was originally envisioned by ancient worshippers with a distinctly male body and with superhuman powers earthly passions and a penchant for the fantastic and monstrous A rollicking journey through every aspect of Yahweh's body from top to bottom yes that too and from inside out Ms Stavrakopoulou has almost too much fun The Economist The scholarship of theology and religion teaches us that the God of the Bible was without a body only revealing himself in the Old Testament in words mysteriously uttered through his prophets and in the New Testament in the body of Christ The portrayal of God as corporeal and masculine is seen as merely metaphorical figurative or poetic But in this revelatory study Francesca Stavrakopoulou presents a vividly corporeal image of God a human shaped deity who walks and talks and weeps and laughs who eats sleeps feels and breathes and who is undeniably male Here is a portrait arrived at through the author's close examination of and research into the Bible of a god in ancient myths and rituals who was a product of a particular society at a particular time made in the image of the people who lived then shaped by their own circumstances and experience of the world From head to toe and every part of the body in between this is a god of stunning surprise and complexity one we have never encountered before
