The Foreign Relations of China Robert C. North, 1969

The Foreign Relations of China Robert C. North, 1973

Comparative Foreign Relations David O. Wilkinson, 1969

Chinese Foreign Relations Robert G. Sutter, 2010

A third edition of this book is now available. This comprehensive and thoroughly updated introduction to Chinese foreign relations discerns the opportunities and limits China faces as it seeks increased international influence. Tracing the record of twists and turns in Chinese foreign relations since the end of the Cold War, Robert G. Sutter provides a nuanced analysis that shows that despite popular perceptions of its growing power, Beijing is hampered by both domestic and international constraints. This text's balanced and meticulous assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant. Facing numerous contradictions and tradeoffs, they move cautiously as they deal with a complex global environment.

China's Environmental Foreign Relations Heidi Wang-Kaeding, 2021-03-01

Over recent decades, China has moved from being a follower towards taking on a leadership role in global environmental governance. This book discusses this important development. It examines the key role of Chinese interest groups showing how, through various domestic dynamics, they have influenced how China has approached issues such as climate change and the environment. Focusing on examples of multilateral environmental treaties, bilateral cooperation, and the proposition of alternative norms, the idea of China as an ecological civilisation, the book provides crucial insights on the evolution of China's approach to international relations and engagement with global environmental governance and contributes to the discussion of what kind of power China is poised to become.

Foreign Relations of the PRC Robert G. Sutter, 2018-07-12

Now in a fully updated edition, this cogent but comprehensive book examines the international relations of the People's Republic of China since its founding in 1949. Noted scholar Robert G. Sutter provides a balanced assessment of the country's recent successes and advances as well as the important legacies and constraints that hamper it, especially in nearby Asia, long the focus of China's foreign policy attention. Sutter demonstrates how Beijing has carefully created an image of a China that follows consistent policies based on morally correct principles, but its record shows repeated episodes of sometime surprising change and frequent use of violence, intimidation, and coercion. China's leaders, he argues, still fail to manage the desire for productive foreign relations with their aspirations to build Chinese security and sovereignty interests. Image-building efforts condition Chinese public and elite opinion to be extraordinarily sensitive, self-righteous, and often alarmist in dealing with the many disputes China has with its Asian neighbors and the United States. Advances that the PRC has made in other parts of the world focus mainly on commercial interests, limiting its actual impact on world affairs. Sutter shows readers how to use China's rise in nearby Asia as a reliable barometer of how important and effective the country will actually become internationally.

Chinese Foreign Policy Marc Lanteigne, 2015-12-22

This updated and expanded 3rd edition of *Chinese Foreign Policy* seeks to explain the processes, actors, and current history behind China's international relations as well as offering an in-

depth look at the key areas of China's modern global relations. Among the key issues are: The expansion of Chinese foreign policy from regional to international interests; China's growing economic power in an era of global financial uncertainty; Modern security challenges including maritime security, counter terrorism and protection of overseas economic interests; The shifting power relationship with the United States as well as with the European Union, Russia and Japan; China's engagement with a growing number of international and regional institutions and legal affairs; The developing great power diplomacy of China. New chapters address not only China's evolving foreign policy interests but also recent changes in the international system and the effects of China's domestic reforms. In response to current events, sections addressing Chinese trade, bilateral relations and China's developing strategic interest in Russia and the Polar Regions have been extensively revised and updated. This book will be essential reading for students of Chinese foreign policy and Asian international relations and highly recommended for students of diplomacy, international security and IR in general.

The Rise of China and Chinese International Relations Scholarship Hung-jen Wang, 2013-08-23. This book looks at the relationship between Chinese international relations (IR) scholarship and China's rise as a world power. Specifically, it addresses how China's rising international status since the early 1990s has shaped the country's IR studies and the different ways that Chinese IR scholars are interpreting that rise. The author argues that the development of IR studies in China has been influenced by China's past historical experiences, its recent change in status in world politics and indigenous scholarly interpretations of both factors. Instead of treating Chinese IR scholars as value-free social scientists, the author shows how Chinese scholars as purposive, strategic and emotional actors tend to manipulate existing, mostly Western IR theories to support their policy propositions and identity statements. This book represents one of few efforts to determine how local Chinese scholars are constructing IR knowledge, how they are dealing with intersections between indigenous Chinese and imported IR theory and concepts, and how Chinese scholars are analyzing their China in terms of its current rise to power.

The Routledge Handbook of US Foreign Policy in the Indo-Pacific Oliver Turner, Nicola Nymalm, Wali Aslam, 2022-12-30. This handbook provides a comprehensive survey of US foreign policy throughout the Indo-Pacific. Home to around 60 percent of the world's population, most of the world's largest and fastest growing economies, around half of the world's states with full nuclear capabilities, and a complicated web of unresolved tensions, disputes and conflicts, the Indo-Pacific is arguably the most diverse, dynamic and contested region on Earth. US strategy there has evolved over centuries, with its physical presence going broadly unchallenged since at least the middle of the last century. However, the rapid development and expanding influence of China, alongside the growth of India, Indonesia, Vietnam, the Philippines and others, as well as political and economic crises and disruptions within the United States itself, mean that in recent times the US has come to occupy a newly uncertain position and perceive a range of highly unfamiliar challenges. To explore how the US has managed and continues to manage its regional history and how it approaches the modern-day landscape of an Indo-Pacific only recently normalised within

international political discourse the book contains 33 newly commissioned chapters from leading experts in the field It does so partly with help from the more traditional realms of International Relations theory as well as more critical realms It also unpacks US policy and strategy as it pertains to regional governments states and multilateral institutions as well as to pressing issues including inter state security human rights trade artificial intelligence and cyber strategy It does so in four parts History of the US in the Indo Pacific Theorising US Policy and Presence in the Indo Pacific The US and Indo Pacific States and Institutions The US and Indo Pacific Issues The book is designed to be of interest to students and scholars of the US in the Indo Asia Pacific the international relations of the Indo Asia Pacific and US foreign policy **China Watching**
