Forces that Shape America's Foreign Policy Pasquale De Marco, 2025-07-13 In the labyrinthine world of American foreign policy there exists a secretive and influential organization that operates behind a veil of discretion the Council on Foreign Relations CFR This exclusive club of elites composed of titans from industry finance academia and media wields immense power in shaping the course of U S foreign policy its decisions reverberating across the globe This book unveils the hidden world of the CFR delving into its intricate network of connections its profound influence on presidents and policymakers and its controversial role in shaping some of the most consequential events in modern history Through meticulously researched analysis we uncover the CFR's outsized impact on American foreign policy from the Cold War to the War on Terror and beyond Critics of the CFR decry its elitism and question its accountability to the American people They argue that the CFR is an unelected cabal that wields undue influence over U S foreign policy promoting a narrow agenda that serves the interests of its members rather than the broader public Proponents of the CFR however contend that it serves as a vital forum for informed debate and discussion on critical foreign policy issues They argue that the CFR's diverse membership and rigorous analysis provide valuable insights and recommendations to policymakers helping to ensure that U S foreign policy is guided by expertise and a long term perspective Whether one sees the CFR as a bastion of expertise and influence or a secretive cabal manipulating global affairs its impact on American foreign policy cannot be denied This book provides a comprehensive examination of the CFR shedding light on its inner workings its historical significance and its enduring legacy This book is a must read for anyone seeking to understand the intricate web of power and influence that shapes American foreign policy It is a journey into the hidden world of the CFR where decisions are made that have profound implications for the future of the United States and the world If you like this book write a review **American Foreign Policy** various, 2013-01-11 Complete
