Literacy Place ,1996 *The Future of Whole Language* Susan M. Church,1996 If you re beginning to feel that the phrase sustainable development might be going down the semantic doublespeak path where being fired from your job is now dubbed occupationally challenged then Daly is the economist for you The innovative scholar and World Bank rabble rouser argues that the catchword of environmentalists and international financiers is being used by both to further their own ends Sustainable development as conceived by Daly becomes a radical proposition of economy as part of the ecosystem requiring that we give up an ideal of economic growth and reevaluate basic ideas about economic theory poverty trade and population Annotation copyright by Book News Inc Portland OR *Making Progress in Writing* Eve Bearne,2003-08-29 Children s achievements in writing lag behind their achievements in reading speaking and listening National tests are beginning to expose this gap and inevitably it is raising concerns The issue is not without controversy but regardless of the politics of the situation national progress in children s writing is both needed and possible This new book from Eve Bearne makes a valuable contribution towards helping teachers close this gap Uniquely it follows the structure of the National Literacy Strategy whilst examining key areas such as bridging KS2 and KS3 writing and writing skills beyond the Literacy Hour Such a structure makes the book incredibly practical and easy to use providing essential information for both practitioners and academics
