A Cultural History of Firearms in the Age of Empire Karen Jones, 2016-03-16 Firearms have been studied by imperial historians mainly as means of human destruction and material production Yet firearms have always been invested with a whole array of additional social and symbolical meanings By placing these meanings at the centre of analysis the essays presented in this volume extend the study of the gun beyond the confines of military history and the examination of its impact on specific colonial encounters By bringing cultural

perspectives to bear on this most pervasive of technological artefacts the contributors explore the densely interwoven relationships between firearms and broad processes of social change In so doing they contribute to a fuller understanding of some of the most significant consequences of British and American imperial expansions Not the least original feature of the book is its global frame of reference Bringing together historians of different periods and regions A Cultural History of Firearms in the Age of Empire overcomes traditional compartmentalisations of historical knowledge and encourages the drawing of novel and illuminating comparisons across time and space Yahweh among the Gods Michael Hundley,2022-01-13 A redefinition of the ancient conceptions of god the relationships between them and the rhetoric used to exalt them **The Practical Guide to Man-Powered Weapons and Ammunition** Richard Middleton,2007-10-17 David slew Goliath with his slingshot for millennia that was the norm as men used a variety of non explosive weapons to fire small stones and carefully rounded bullets of clay glass and even steel and lead This unusual study explores in practical detail the many ways old and new in which man shot projectiles without recourse to gunpowder They include the bow and arrow a favorite for the last 10 000 years pump up air guns blowpipes catapults and homemade lead musketballs There s information on ammunition and velocity as well as a lively personal narrative filled with humor and the spirit of experimentation *The Weapons of Our Warfare* George O.
