The Digital Edge: Transforming Business Systems for Strategic Success Bahaaeddin Alareeni, 2025-09-26 This book aims to provide a comprehensive examination, analysis and reflection on digitalization strategies, technologies and management practices that drive successful digital transformation in addition to the challenges encountered. Digital transformation is fundamentally transforming the landscape of business systems driving innovation and efficiency within businesses. This book aims to provide a comprehensive examination, analysis and reflection on digitalization strategies, technologies and management practices that drive successful digital transformation in addition to the challenges encountered. Topics included are: cloud computing; Big Data analytics; Internet of Things (IoT); robotic process automation (RPA) and digital twin technology. This book will also address the leadership strategies, organizational culture and change management process necessary to facilitate digital transformation. Case studies across industries will highlight successful digital transformation efforts and common pitfalls. This book is designed for business leaders, managers and researchers interested in leveraging digital transformation for sustained competitive advantage. **Information Technology and Organizational Transformation** Benoit Aubert, Suzanne Rivard, Michel Patry, Guy Pare, Heather Smith, 2004-02-18 This text is designed to help managers who have to deal with a complex environment and who are often presented with ready-made solutions as to how to best organize their firm to best use information technology. The book presents a simple and attractive framework within which managers can analyze their firm's environment and characteristics and reflect on the most appropriate way for them to put the puzzle together. It provides the manager and student with an integrated conceptual but pragmatic framework to analyze their situation. Courses examining the role of Information Technology in emerging organizational forms will find a well-grounded conceptual framework illustrated with in-depth case studies. The book draws from the latest research in industrial organization, strategy, information technology, organizational theory and leadership. It examines the individual puzzle pieces that have to be put together: strategy, structure, information technology and leadership, and presents the cases of three firms that were equally successful in putting these pieces together while choosing pieces with dramatically different forms and adjusting them in radically different ways. The three in-depth cases included in the book are: international Oticon is a Danish firm with close to 1500 employees and is a world leader in the manufacture of hearing aids; Li Fung is another firm established in Canton and is an international trading company.
