in American literature from the beginning and has developed characteristics that reflect the American character both
regional and national Although American literature was in the past treated as inferior to British literature there has always
been a large popular audience for the genre which this book shows The figures with entries in this encyclopedia not only
amuse in their writing but also aim to enlighten setting out to expose the foibles and foolishness of society and the individuals
who compose it It is the manner in which these authors try to accomplish this end that determines whether they appear in
the volume Indeed the book will demonstrate that the best humor has at its base a ready understanding of human nature
