**abolition, 1831-1841** Albert Bushnell Hart, 1907      **Encyclopedia of Antislavery and Abolition** Peter Hinks, John  
McKivigan, 2006-11-30 The emergence of a sophisticated antislavery ideology and the rise of organized opposition to slavery  
in the Atlantic World in the eighteenth and nineteenth centuries represented nothing less than one of the great intellectual  
and social revolutions in the history of the world An institution which by the early eighteenth century was near axiomatically  
accepted as necessary useful and thoroughly in accord with Judaeo Christian tenets and virtues and which profoundly  
informed the lives of millions of people had by the mid nineteenth century come increasingly to be viewed as the chief vector  
of evil and the Devil in the world the very quintessence of evil as some called it and the chief repository of all that was  
socially politically and especially economically archaic and stagnant This encyclopedia is organized around three principal  
concerns the illustration and explication of the various forms of antislavery and its emergence as an organized movement the  
immediate precipitants of abolition and the processes of its passage and the enactment of emancipation and its consequences  
While the earliest expressions of antislavery may have only comprised one or a few isolated voices the antislavery most  
commonly reviewed here is that animated by a systematic and ardent opposition to slavery and intended to mobilize large  
numbers of people to attack and end the institution A wide variety of people and organizations nurtured and extended this  
antislavery religious figures political economists slaves sailors artisans missionaries planters captains of slave ships  
democratic enthusiasts and others were all involved along with the various organizations secular religious or otherwise with  
which they were associated Antislavery was by no means exclusively or even principally the work of an intellectual elite and  
the force of all from the lowly and unlearned to the privileged and prominent is represented The presence of slavery  
continued to be attacked in the contracting Ottoman Empire in the early twentieth century in Liberia in the 1930s in Saudi  
Arabia in the mid twentieth century and even in the latter years of the century in countries like Sudan Pakistan India and  
others in Southeast Asia The entries have a worldwide focus covering antislavery movements and important developments in  
slavery abolition and slave emancipation in many places around the globe Other entries cover individuals groups events  
documents and organizations related to the history of abolition and emancipation over the last two centuries Coverage also  
address a wide range of topics issues and ideas related to the broad topic of ending historical systems of slavery and human  
bondage Besides over 400 cross referenced entries most of which conclude with lists of additional readings the encyclopedia  
also includes an Introduction tracing the history of abolition and emancipation a selected general bibliography a guide to

related topics numerous illustrations and a detailed subject index

**An Old Creed for the New South** John David Smith, 2008-02-12 *An Old Creed for the New South* Proslavery Ideology and Historiography 1865-1918 details the slavery debate from the Civil War through World War I Award winning historian John David Smith argues that African American slavery remained a salient metaphor for how Americans interpreted contemporary race relations decades after the Civil War Smith draws extensively on postwar articles books diaries manuscripts newspapers and speeches to counter the belief that debates over slavery ended with emancipation After the Civil War Americans in both the North and the South continued to debate slavery's merits as a labor legal and educational system and as a mode of racial control The study details how white Southerners continued to tout slavery as beneficial for

both races long after Confederate defeat During Reconstruction and after Redemption Southerners continued to refine proslavery ideas while subjecting blacks to new legal extralegal and social controls An Old Creed for the New South links pre and post Civil War racial thought showing historical continuity and treats the Black Codes and the Jim Crow laws in new ways connecting these important racial and legal themes to intellectual and social history Although many blacks and some whites denounced slavery as the source of the contemporary Negro problem most whites including late nineteenth century historians championed a new proslavery argument The study also traces how historian Ulrich B Phillips and Progressive Era scholars looked at slavery as a golden age of American race relations and shows how a broad range of African Americans including Booker T Washington and W E B Du Bois responded to the proslavery argument Such ideas Smith posits provided a powerful racial creed for the New South This examination of black slavery in the American public mind which includes the arguments of former slaves slaveholders Freedmen s Bureau agents novelists and essayists demonstrates that proslavery ideology dominated racial thought among white southerners and most white northerners in the five decades following the Civil War

*The Rise of Aggressive Abolitionism* Stanley Harrold,2021-10-21 The American conflict over slavery reached a turning point in the early 1840s when three leading abolitionists presented provocative speeches that for the first time addressed the slaves directly rather than aiming rebukes at white owners By forthrightly embracing the slaves as allies and exhorting them to take action these three addresses pointed toward a more inclusive and aggressive antislavery effort These addresses were particularly frightening to white slaveholders who were significantly in the minority of the population in some parts of low country Georgia and South Carolina The Rise of Aggressive Abolitionism includes the full text of each address as well as related documents and presents a detailed study of their historical context the reactions they provoked and their lasting impact on U S history

**The Transformation of American Abolitionism** Richard S. Newman, 2003-04-03 Most accounts date the birth of American abolitionism to 1831 when William Lloyd Garrison began publishing his radical antislavery newspaper The Liberator In fact however the abolition movement had been born with the American Republic In the decades following the Revolution abolitionists worked steadily to eliminate slavery and racial injustice and their tactics and strategies constantly evolved Tracing the development of the abolitionist movement from the 1770s to the 1830s Richard Newman focuses particularly on its transformation from a conservative lobbying effort into a fiery grassroots reform cause What began in late eighteenth century Pennsylvania as an elite movement espousing gradual legal reform began to change in the 1820s as black activists female reformers and nonelite whites pushed their way into the antislavery movement Located primarily in Massachusetts these new reformers demanded immediate emancipation and they revolutionized abolitionist strategies and tactics lecturing extensively publishing gripping accounts of life in bondage and organizing on a grassroots level Their attitudes and actions made the abolition movement the radical cause we view it as today
