Sophocles and the Tragedy of Athenian Democracy D. G. Beer,2004-03-30 The Athenian democracy of the 5th century B C created the most important political theatre of western culture Sophocles the most successful tragic playwright of the age was a radical innovator who produced his tragedies to present to his audience complex moral social and political issues of a kind that they might be faced with in their various legal and political assemblies Beer examines Sophocles as a political playwright against the background of Athenian democracy breaking new ground by showing the importance of the mask for understanding Sophoclean tragedy and redefining the notion of *skēnographia* or setting the scene He concludes that Sophocles revolutionized the concept of dramatic space The Athenian tragic theatre was deeply political and played an important and active role in the life of Athenian democracy This book presents an introduction to the political nature of Greek tragedy and Sophoclean tragedy in an effort to shed new light on the dramatic works of the 5th century playwright As Aristotle noted Sophocles two most important innovations were the introduction of the third actor and *skēnographia* which brought tragedy to its fully evolved form Beer argues that although his use of the third actor has been widely understood his use of *skēnographia* has not Carefully exploring the true sense of this method of using dramatic space Beer brings a new understanding to the works of this old master **Reflexivity in Love A Self-Reflexive Portrait of the Little Flower of Jesus** Fr. Emmanuel Javert Nnadozie OCD,2024-09-19 This book focuses particularly on the self reflexive elements of the divine and human transformation in the Christian life which we find in St Therese especially her ability to wonder and

question herself about the mysteries of God as they relate to her spiritual life and growth. It studies Therese's spirit of critical listening and profound spiritual reflection on the things of her experience and explores her self-reflective and interrogative self-understanding of her call to sanctity of life. The author also discusses how the Saint appropriated God's Word and God's grace hidden in the events of her life. The book shows how through self-reflexivity and meditation on God's Word she discovered her vocation as love in the heart of the Church, following which she desired to sing of the mercies of the Lord with her whole life by loving God and neighbor in ordinary things in an extraordinary way and by leading a legion of souls through this Little Way of love which has a general or universal application to all who desire to attain perfection by a straight and short route. While it is recognized that God's grace works in individuals according to their personal vocations, the author believes that spiritual self-reflexivity helps the faithful to integrate meaningfully like St. Therese the general principles of the spiritual life and the example of the Saints into each individual's spiritual life in the events of daily life irrespective of their individual vocations. And this is why the Little Way as a spiritual path can be lived by all who commit themselves to following the example found in St. Therese's simple, humble, and confident way of spiritual childhood and of loving God and neighbor in the ordinary life and events of every day with reflexivity in love as the key.
