Features of the patient history including medications are examined in light of the possible slit lamp findings. Detailed notes for proper documentation are included along with tables to give guidelines for subjective grading of the findings. Updated and key features: The examination of patients on various systemic medications with a list of drugs that may have side effects visible with the slit lamp. The examination of post-operative patients with a new section that focuses on patients who have undergone refractive surgery. Up-to-date study icons, key points listed at the beginning of each chapter, and What the Patient Needs to Know sidebars. Photographs and descriptions of parts and care of the slit lamp.
