an introduction to Dzogchen meditation to the Nyingma tradition and to basic Buddhism **Insight and Intuition - Two Sides of the Same Coin?** Michael Öllinger, Kirsten G. Volz, Eörs Szathmáry, 2018-07-12 Insight and intuition might be the most mysterious and fascinating fields of human thinking and problem solving They are different from standard and analytical problem solving accounts and provide the basis for creative and innovative thinking Until now they were investigated in separate academic fields with differing tradition Therefore this eBook attempts to bridge the gap between both processes and to provide a more integrated perspective Several experts address the underlying cognitive processes and provide a broad spectrum of new empirical theoretical and methodological insights *The Nature of the Self* Paul Cobben, 2009 The human self is a free self that gets shape in a society in which it is both equal to the others and unique Therefore the modern debate on society is dominated by the determination of the relation between right and morality This work argues that this relation has to be developed as a systematic elaboration of the mind body relation
