America's Civil War provides a detailed overview of the cultural and ideological landscape of post colonial America that set the stage for war and vividly describes the course of the conflict that took more American lives than any war in history and altered the course of the nation. Emphasis is placed on the fierce cultural and economic rivalry between the industrial North and the agricultural South and the pivotal rift concerning slavery that led to this irrepressible and bloody fight. The lives of common soldiers, the weapons and methods of warfare, the presidency of Abraham Lincoln and the role of other significant political and military leaders are among the topics discussed as well as the abolitionist movement, the underground railroad and dramatic figures such as Harriet Beecher Stowe and John Brown. Challenging review questions encourage meaningful reflection and historical analysis. Maps, tests, answer keys and extensive bibliography are included. *The Civil War* Anne Devereaux Jordan, Virginia Schomp, 2007. Describes the role of African Americans during the Civil War 1861-1865. This work brings together a broad spectrum of titles related to the African American participation in America's wars. It covers both the military exploits as African Americans have been involved in every American conflict since the Revolution and their participation in the homefront support in building the weapons that the armed forces used. Organized both chronologically and topically, chapters cover the various conflicts from the Revolutionary War to the Post World War II era and branches of the military as well as the role of African American women in the United States military. This extensive reference work is the most comprehensive listing of African American units available. Additionally, a listing of juvenile titles will assist parents and teachers in locating material.
