Taoist Buildings:

Taoist Buildings Qiao Yun, 2015 Taoist Buildings traces the origins and development of Taoism in China and Taoism's effect on Chinese architecture with color photographs and illustrations of various Taoist temples, monasteries and palaces

Ancient Chinese Architecture / Taoist Buildings Yun Qiao, 2001-11-28 The Taoist buildings and gardens and their relationship to natural elements, history and legends provide a rare insight into the ethereal world of Taoism. Taoist buildings have basically evolved from the traditional square Chinese courtyards. The main halls built on the central axis serve as places of enshrinement and worship for statues of Taoist gods as well as for conducting ritual ceremonies. Many Taoist temples have a small garden. In hilly areas, these gardens have been built to gracefully echo the surrounding landscape. These temples abound with sculpture, calligraphy and stone inscriptions.

Taoism and the Arts of China Stephen Little, Shawn Eichman, Kristofer Shipper, Patricia Buckley Ebrey, 2000-01-01 A celebration of Taoist art traces the influence of philosophy on the visual arts in China.

MY TAIWAN LOCAL TAOIST TEMPLES PHOTOGRAPH MEMOIR Daniel Nardini, 2024-11-17 Taiwan also known as the Republic of China has more Taoist temples than any other country including China where Taoism originated. With 9,584 Taoist temples in Taiwan, Taoism is the most popular religion in Taiwan, followed by Buddhism and Christianity. Taoism has been part of the way of the Taiwanese people ever since the first Chinese immigrants set foot on the island centuries ago. The Taoist temples were among the first things they built, and many of these temples have survived for centuries and are still used by the descendants of those first Chinese settlers. The author has seen many Taoist temples in the four plus years he lived in Taiwan. This book deals with the local Taoist temples the author had traversed through countless times while in Taiwan. From the first time to the last time he saw these beautiful places, these local Taoist temples are impressive architectural marvels of Chinese culture.

The A to Z of Taoism Julian F. Pas, 2006-01-13 Taoism, the set of philosophical teachings and religious practices rooted in the understanding of the Chinese character Tao or The Way, was founded by the Chinese philosopher Laozi in the 6th Century BCE. His work, the Tao Te Ching, The Book of the Way, and its Virtue laid the philosophical foundation for the religion's beliefs. This volume starts as it should, with a detailed chronology of Taoism and its relationship both to China and other teachings. The introduction inserts it further in this basic context. Then the dictionary section, consisting of several hundred cross-referenced entries, provides a more detailed treatment of significant persons, nonpersons, gods and demons, concepts.
