The Mystery of Life and how Theosophy Answers it Clara Codd, 192? **The Conquest of Illusion** Jacobus Johannes Leeuw, 1928 *The Conquest of Illusion* J. J. Van Der Leeuw, 2017-06-28 The Conquest of Illusion written by Dutch theosophist and author J J van der Leeuw and first published in 1928 is remarkable for its very clear exposition of the nature of illusion and the need to pierce its veil and find the reality that exists at every moment of time We always seek in the wrong direction says Dr van der Leeuw we always want more time we demand even endless time in our quest of immortality Yet the infinitely greater Reality is ever ours to enter if we but will *The Theosophical Path* Katherine Augusta Westcott Tingley, 1925 **The Theosophist**, 1899 **Theosophical Path**, 1916 **Experiments in Psychical Research at Leland Stanford Junior University** John Edgar Coover, 1917 **Empire of Religion** David Chidester, 2022-12-22 How is knowledge about religion and religions produced and how is that knowledge authenticated and circulated David Chidester seeks to answer these questions in *Empire of Religion* documenting and analyzing the emergence of a science of comparative religion in Great Britain during the second half of the nineteenth century and its complex relations to the colonial situation in southern Africa In the process Chidester provides a counterhistory of the academic study of religion an alternative to standard accounts that have failed to link the field of comparative religion with either the power relations or the historical contingencies of the imperial project In developing a material history of the study of religion Chidester documents the importance of African religion the persistence of the divide between savagery and civilization and the salience of mediations imperial colonial and indigenous in which knowledge about religions was produced He then identifies the recurrence of these mediations in a number of case studies including Friedrich Max Müller's dependence on colonial experts H Rider Haggard and John Buchan's fictional accounts of African religion and W E B Du Bois's studies of African religion By reclaiming these theorists for this history Chidester shows that race rather than theology was formative in the emerging study of religion in Europe and North America Sure to be controversial *Empire of Religion* is a major contribution to the field of comparative religious studies *Rudolf Steiner's Path of Initiation and the Mystery of the Ego* Rudolf Steiner, Sergei O. Prokofieff, 2013 2 lectures by Sergei O Prokofieff Bologna March 31 April 8 2011 A special conference took place in Bologna in spring 2011 marking the hundredth anniversary of a unique lecture Steiner delivered to a philosophically trained audience in the same city In his key exposition Steiner had given a concise description of the spiritual scientific theory of knowledge as well as a brief outline of the anthroposophic path of training In his contribution to the 2011 congress Prokofieff tackles two principal aspects On the one hand he describes how Steiner's Bologna lecture contained the essential foundations for a new science of the human ego the human I On the other hand Prokofieff states that Steiner was the first person to transform this theory into a practical path of knowledge following it to its very conclusion Thus the words of Steiner's lecture were based entirely on personal experience Together with a transcript of Steiner's full Bologna lecture Prokofieff's lecture is reproduced here in an

expanded version In addition this volume features Steiner s important summaries of essential points in which he develops and connects some of his key thoughts with further aspects of Anthroposophy especially in relation to their Christological foundations **Psychical Research Monograph, No. 1** Stanford University,1917
